Anatomy, Surgery, Physiology, Obstetrics, Practice of Medicine, Chemistry, Pathology, Hygiene, Materia Medica, Therapeutics,

and on

SPECIALITIES IN MEDICINE,

Such as Laryngoscopy, Ophthalmology, Microscopy, Electricity, Toxicology, Psychology, Medical Jurisprudence, &c. &c.

They are also the only house that keeps on hand a complete assortment of

ANATOMICAL PLATES

For the use of Professors and Lecturers, and for Office use, in sheets, and on rollers, mounted on muslin, from 3 to 6 feet in length.

THEIR STOCK IS LARGE OF

WORKS ON NATURAL HISTORY

AND

THE MECHANICAL ARTS.

IMPORTATIONS FROM EUROPE are received weekly, and

ALL NEW ENGLISH MEDICAL BOOKS

Are forwarded to us in quantities, by our London Agent, immediately upon publication. A Special Catalogue of these is issued from time to time, and will be sent to any address, free, upon application.

☞ COMPLETE AND SPECIAL CATALOGUES WILL BE SENT ON APPLICATION, and books forwarded to any part of the United States, free by mail or express, upon receipt of the prices affixed, thus placing our large stock within reach of those living in other cities, or at a distance.

WM. WOOD & CO.,

Publishers, Booksellers, and Importers,

61 Walker Street, New York.

We have in our possession numerous testimonials to the superiority of our Oil from the most distinguished physicians of Philadelphia and elsewhere. Among these are the names of Dr. Samuel Jackson, of the University of Penn'a, Dr. Joseph Leidy, of ditto, Dr. Thomas D. Mutter, Dr. W. Darrach, and others.

JOHN C. BAKER & CO.'S
Effervescing Solution of Citrate of Magnesia.

The constituents of our preparation are precisely balanced, without flocculence or precipitate, and we WARRANT it to retain its full refrigerant and laxative properties, as well as its pellucidity.

Useful in removing Headache, Dyspepsia or Indigestion, Bilious Affections, Heartburn, Acidity of the Stomach, Costiveness, Plethora, Nausea or Vomiting, Febrile Complaints, Infantile Disorders, and Sea Sickness.

JOHN C. BAKER & CO.,
718 Market Street, Philadelphia, Pa.

THE PALMER ARM AND LEG.

B. FRANK. PALMER, LL.D., Inventor and Sole Proprietor.

TEN THOUSAND IN USE!!!

The CERTIFIED TESTIMONY (just received) of the great mass of OFFICERS and SOLDIERS wearing all the VARIOUS KINDS OF PATENT LIMBS, proves the VAST SUPERIORITY OF THE "PALMER" over all others THE FIRST 400 REPORTS show 200 PALMERS, and a similar number made by the entire combination of imitators and counterfeiters of them, as follows, viz:

LEGS FURNISHED BY		LEGS FURNISHED BY	
Dr. B. FRANK. PALMER,	200	OTHER MANUFACTURERS,	200
SATISFACTORY,	180	SATISFACTORY,	6
LESS "	12	LESS "	8
NOT "	8	NOT "	186
SOLDIERS who recommend the "PALMER" (out of the 400),	281	SOLDIERS who recommend the limbs worn (out of the 400),	10

The ROYAL SANITARY COMMISSION OF BERLIN chose them for the PRUSSIAN ARMY and NAVY, and presented Dr PALMER, for his models, AN HONORARIUM OF VALUE, $1000!

Dr. PALMER is now sole proprietor of his patents, and the business, and directs the manufacture PERSONALLY.

The patronage of the Profession is respectfully solicited.

MEDICAL INSTITUTE.

ROBERT BOLLING, M.D. JAS. H. HUTCHINSON, M.D. H. LENOX HODGE, M.D.

WINTER EXAMINATIONS.—The Course will begin with the Lectures at the University of Pennsylvania, and will continue until the close of the session. **Fee, Thirty Dollars.**

SUMMER SCHOOL OF MEDICINE.—The Fifth Session will begin on March 1st, 1869, and students may enjoy its privileges without cessation until October.

Examinations and Lectures will be given during April, May, June, and September. **Fee, Fifty Dollars.**

OFFICE STUDENTS will be received for the whole or part of a three years' course of study. They will be admitted to the Summer School and to the Winter Examinations, and Clinical Instruction will be provided for them at the Pennsylvania, Philadelphia, Episcopal, and Children's Hospitals. They will be given special instruction in the Microscope, Practical Anatomy, Percussion and Auscultation, Practical Obstetrics, Bandaging, and Operative Surgery. They will be enabled to examine patients with Diseases of the Heart and Lungs, to attend Women in Confinement, and to make Microscopical and Chemical Examinations of the Urine.

Fee for One Year, One Hundred Dollars.

CANDIDATES FOR ADMISSION TO THE ARMY OR NAVY, and those desiring promotion to a higher grade, may obtain the use of the Class Rooms, and be furnished with private instruction.

THE SOCIETY OF THE MEDICAL INSTITUTE meets once every month; essays are read, and medical subjects discussed by the members.

During the year, Lectures will be delivered on

OPERATIVE AND MINOR SURGERY, by H. LENOX HODGE, M. D.

PERCUSSION AND AUSCULTATION, by JAMES H. HUTCHINSON, M. D.

MICROSCOPE, by HORACE WILLIAMS, M. D.

DISEASES OF THE EYE, by GEORGE C. HARLAN, M. D.

CLASS ROOMS, No. 920 Chestnut Street (Library, Cabinets, Microscope).

ANATOMICAL AND SURGICAL HOUSE, College Avenue (Dissection, Bandaging, Fracture Apparatus, Operative Surgery).

TRADE MARK.

Important Notice.

DR. DE JONGH'S

(Genuine) Light Brown

COD-LIVER OIL.

In consequence of the immense demand for this celebrated Oil, spurious imitations have been, and are still being offered to the American public.

In order to put a final stop to such dishonest proceedings and enable purchasers to place full confidence in the genuineness of the Oil they are purchasing, every bottle of

DR. DE JONGH'S LIGHT BROWN COD-LIVER OIL

shipped to the United States and Canada is sealed with this Trade Mark capsule colored opaque blue, bright top (on which is stamped a blue fish on a red shield), and the LABEL ON EACH BOTTLE bears THREE SIGNATURES, viz.: that of Dr. De Jongh, that of Ansar Harford & Co., sole consignees, London, and of Edward Greey & Co., sole Agents in the United States and Canada.

To these unequivocal evidences of genuineness the attention of the medical profession is earnestly directed.

SOLE ACCREDITED AGENTS FOR AMERICA AND CANADA,

EDWARD GREEY & CO., 34 Vesey Street, New York.

Sold by all respectable Druggists.

PREFACE.

The following pages have been prepared with the view of supplying a want long and seriously felt by many practitioners in this city. The matters dealt with are dry facts; so that accuracy, completeness, and convenience of arrangement, have been the essential merits to be aimed at.

As to the list of physicians, the Editor would say that he assumes no other responsibility than that of giving a directory of those graduates of respectable medical schools, who are reputed to be engaged in the regular practice of medicine in Philadelphia.

Since these pages were put in press, the Obstetrical Society of Philadelphia has been organized; an account of it will be found appended to Section VI.

It may be stated that two Medical Book Clubs, and a Medical Journal Club, are in active operation in

29080

this city; they are of course entirely private in their objects and organization.

In conclusion, the Editor desires to thank the numerous friends who have aided him by furnishing information, and who have given him much kind encouragement in his work.

1415 Spruce Street, July, 1868

SECTION I.

MEDICAL ASSOCIATIONS.

The College of Physicians of Philadelphia,

HALL NORTHEAST CORNER OF THIRTEENTH AND LOCUST STS.,

Was incorporated in 1789, and consists of Fellows and Associates. The former must be practitioners of medicine in good standing, residents of the city of Philadelphia, and over twenty-four years of age. The latter must be distinguished practitioners of medicine residing beyond the limits of the city; they must not exceed fifty in number, and twenty of them may be foreigners. "The objects of this College are to advance the science of medicine, and thereby to lessen human misery, by investigating the diseases and remedies which are peculiar to this country; by observing the effects of different seasons, climates, and situations upon the human body; by recording the changes which are produced in disease by the progress of agriculture, arts, population, and manners; by searching for medicines in the American woods, waters, and in the bowels

of the earth; by enlarging the avenues to knowledge from the discoveries and publications of foreign countries; and by cultivating order and uniformity in the practice of physic." (*Charter*, § 2.)

The initiation-fee to the Fellows is fifteen dollars; the semi-annual contribution five dollars, payable in January and July.

A stated meeting of the College is held on the first Wednesday evening of each month. The Library is open for the use of the Fellows daily (Sundays and legal holidays excepted), from 11 A.M. to 3 P.M. It consists of about 12,500 volumes, comprising full sets of many American and foreign periodicals. Over 3000 of these volumes have been given to the College by Dr. Samuel Lewis, and 2000 were bequeathed to it by the late George Ord, Esq. The Museum is open every Tuesday, from 4 P.M. to 6 P.M.

The proceedings of the College are published from time to time in the *American Journal of the Medical Sciences.*

By an agreement with the late Dr. T. D. Mütter, the College erected a fire-proof building, their present Hall, which was completed in 1863. They came into possession, in that year, of Dr. Mütter's pathological museum and a large portion of his library, and engaged to appoint in March, 1864, and every third year thereafter, a lecturer, who must deliver three annual courses of at least ten lectures each, on some point or points connected with surgical pathology. Dr. Harrison Allen is the present appointee.

The following is a list of the officers and standing committees elected by the College for the year 1868:—

President,	GEORGE B. WOOD, M. D.
Vice-President,	GEORGE W. NORRIS, M. D.
Secretary,	JOHN H. PACKARD, M. D.
Treasurer,	JOHN RODMAN PAUL, M. D.
Curator,	T. HEWSON BACHE, M. D.
Librarian,	ROBERT BRIDGES, M. D.

Censors.—DRS. ISAAC HAYS, JOSEPH CARSON, LEWIS RODMAN, and EDWARD HARTSHORNE.

*Councillors....*To serve till Jan. 1869, DRS. A. STILLÉ and ELLERSLIE WALLACE; to serve till Jan. 1870, DRS. F. WEST and FRANCIS W. LEWIS; to serve till Jan. 1871, DRS. S. LITTELL and CASPAR MORRIS.

Committee of Publication.—DRS. J. M. DACOSTA, SAMUEL LEWIS, and JOHN ASHHURST, JR.

Library Committee.—DRS. SAMUEL LEWIS, ALFRED STILLÉ, WALTER F. ATLEE, ROBERT BRIDGES, and JOHN ASHHURST, JR.

Committee on the Mütter Museum.—DRS. J. RODMAN PAUL, WILLIAM HUNT, and S. WEIR MITCHELL.

Hall Committee.—DRS. ISAAC HAYS, GEORGE W. NORRIS, EDWARD HARTSHORNE, LEWIS RODMAN, and D. FRANCIS CONDIE.

Committee on Lectures.—DRS. SAMUEL D. GROSS, GEORGE B. WOOD, GEORGE W. NORRIS, JOSEPH LEIDY, and D. FRANCIS CONDIE.

The following is a list of the present Fellows and Associates of the College, in the order of their election:—

Elijah Griffiths,	1821.	Benjamin Hornor Coates,	1827.

The Philadelphia County Medical Society.

ORGANIZED IN 1848.

Its objects are "The advancement of knowledge upon all subjects connected with the healing art; the organization of the profession in connection with the State Medical Society and the American Medical Association; the elevation of the character, and the protection of the proper rights and interests of those engaged in the practice of medicine; and the study of the means calculated to render the medical profession most useful to the public, and subservient to the great interests of humanity." (*Constitution*, Art. II.)

To entitle a person to membership in this Society, he must be a citizen of the County of Philadelphia, a graduate of at least three years' standing of a respectable medical school, a licentiate for a similar period of some approved medical institution, or a regular practitioner of at least fifteen years' standing, and of good moral and professional reputation.

A Physician, removing into this county, is not eligible for membership until after he has been engaged one year in the regular practice of medicine within the county.

The initiation fee is three dollars; the annual contribution, four dollars. Stated meetings are held on the third Wednesdays of January, April, July, and October. Meetings for discussion on the second Wednesday of each month, from September to March. The Society have the use of a room in the Hall of the College of Physicians.

Officers for 1868.

President,	Dr. George Hamilton.
Vice-Presidents,	J. Henry Smaltz,
	D. Hayes Agnew.
Secretary,	Wm. B. Atkinson.
Assistant Secretary,	Lucius S. Bolles.
Corresponding Secretary,	Horace Y. Evans.
Treasurer,	Alfred M. Slocum.

Censors.—Drs. Alfred Stille, Winthrop Sargent, H. St. Clair Ash, Charles S. Boker, Augustine H. Fish.

The Medical Society of the State of Pennsylvania

May be not inappropriately noticed here. It is composed of delegates from the County Medical Societies, and of permanent members (former delegates). Its objects are "the advancement of medical knowledge; the elevation of professional character; the protection of the interests of its members; the extension of the bounds of medical science; and the promotion of all measures adapted to the relief of suffering, and to improve the health and protect the lives of the community." (*Constitution*, Art. II.) Its expenses are paid by assessments on the County Societies, proportionate to the number of delegates sent by each. It holds a meeting on the second Wednesday in June of each year, at a place designated at the previous meeting.

President,	Dr. TRAILL GREEN,	Northampton Co.
Vice-Presidents,	ANDREW NEBINGER,	Philadelphia "
	J. L. STEWART,	Erie "
	W. W. RUTHERFORD,	Dauphin "
	G. W. HALDEMAN,	Cumberland "
Permanent Secretary,	WM. B. ATKINSON,	Philadelphia "
Treasurer,	WM. MAYBURRY,	Philadelphia "
Corresponding Secretary,	WINTHROP SARGENT,	Philadelphia "
Recording Secretary,	S. S. SCHULTZ,	Dauphin "

The State is divided into six Censorial Districts, the first of which comprises the counties of Philadelphia, Delaware, Chester, Montgomery, Bucks, Lehigh, Berks, Schuylkill, Lebanon, Dauphin, and Lancaster. Each

district has five Censors, elected by vote of the Society. Those for the first and second districts (merged) are—

Dr. D. F. Condie,	Philadelphia	County.
A. Seip,	Northampton	"
H. Corson,	Montgomery	"
J. Thomas,	Chester	"
J. L. Atlee,	Lancaster	"

The American Medical Association,

Composed of delegates from the State and County Medical Societies, as well as from hospitals, colleges, and other medical bodies, meets annually on the first Tuesday in May or June, this year and every second year hereafter in Washington, D. C.; the places of meeting for the alternate years being settled from time to time.[1]

The officers for the present year are—

President,	Dr. Samuel D. Gross,	of Pennsylvania.
Vice-Presidents,	A. C. Post,	of New York.
	John L. Atlee,	of Pennsylvania.
	D. W. Yandell,	of Kentucky.
	H. R. Storer,	of Masachusetts.
Permanent Secretary,	Wm. B. Atkinson,	of Pennsylvania.
Assistant Secretary	J. W. H. Lovejoy,	of Dis. Columbia.
Treasurer,	Caspar Wister,	of Pennsylvania.

[1] In 1869 the Association will meet in New Orleans, on the first Tuesday in May.

The Northern Medical Association of Philadelphia.

ORGANIZED JANUARY 7, 1847.

The objects of this Association are "to cultivate the science of medicine, and promote harmony among its members." (*Constitution*, Art. II.)

The initiation fee is three dollars; the annual contribution, one dollar.

The stated meetings are held on the second and fourth Friday evenings of each month, except July and August.

President,	Dr. WM. B. ATKINSON.
Vice-President,	E. B. SHAPLEIGH.
Secretary,	CHARLES CARTER.
Corresponding Secretary,	JOSEPH R. BRYAN.
Treasurer,	A. M. SLOCUM.
Reporting Secretaries,	L. J. DEAL,
	W. M. WELCH.

Councillors.—DRS. J. H. SMALTZ, L. P. GEBHARD, LEVI CURTIS, N. L. HATFIELD, ROBERT BURNS.

The Southern Medical Society of Philadelphia.

ORGANIZED MAY, 1866.

This Society is composed of regular graduates in medicine, practising or residing south of Market Street and east of the river Schuylkill. Its objects are "the advancement of knowledge upon all subjects connected with the healing art; the elevation of the character, and the protection of the proper rights and interests of those engaged in the practice of medicine." (*Constitution*, Art. II.)

The initiation fee is five dollars, and the annual contribution is three dollars.

The officers of the Society are a *President*, two *Vice-Presidents*, a *Recording Secretary*, a *Corresponding Secretary*, a *Treasurer*, and three *Censors*, who shall be elected by ballot at the stated meeting in January, and shall serve until their successors are elected.

Stated meetings are held on the first Monday of each month, at 4 P. M.

"ARTICLE IX.—The Black Book of the Society shall contain such particulars of persons neglecting or refusing to compensate their medical attendants according to their ability (viz., names, residences, dates of attendance, amounts due, &c. &c.), as shall from time to time be transmitted to the Recording Secretary, and said book shall be accessible only to members of the Society in good standing."—*Constitution and By-Laws*, p. 16.

List of Officers.

ELECTED JANUARY 6, 1868.

President,	ANDREW NEBINGER,
Vice-Presidents,	R. W. RITCHIE,
	R. HENRY WEVILL.
Treasurer,	F. SCOFFIN.
Recording Secretary,	H. F. BAXTER.
Corresponding Secretary,	J. G. ALLEN.

Censors.—W. B. ATKINSON, J. GEGAN, Jr., T. S. REED.

The Pathological Society of Philadelphia.

This Society was organized in 1857. Its objects are "the cultivation and promotion of the study of Pathology, by the exhibition and description of specimens, drawings, and other representations of morbid parts." (*Constitution*, Art. II.) It holds its meetings on the second and fourth Thursdays of every month, except July and August, in the lower hall of the College of Physicians, at 8 P. M.

Its membership, to which any respectable physician is eligible, is composed of residents and correspondents. The former pay an initiation fee of three dollars, and an annual contribution of two dollars.

At the ordinary meetings of the Society each member may introduce a visitor, who must, however, retire on the Society going into its private business.

The officers of the Society are as follows:—

President,	Drs. John H. Packard.
Vice-Presidents,	S. Weir Mitchell,
	John Ashhurst, Jr.,
Secretaries,	James H. Hutchinson,
	Charles S. Boker.
Treasurer,	George Pepper.

Committee of Publication.—Drs. S. Weir Mitchell and John H. Brinton.

*Committee on Pathological Researches.**—Drs. S. Weir Mitchell, S. Lewis, J. M. DaCosta, and F. F. Maury.

List of Members.

D. H. Agnew,	C. H. Boardman,
John Ashhurst, Jr.,	J. H. Brinton,
Samuel Ashhurst,	J. J. Black,
Thomas H. Andrews,	T. H. Bache,
Harrison Allen,	W. H. Bartles,
Francis Ashhurst,	C. H. Burnett,
C. S. Boker,	L. S. Bolles,

---

* A Committee on Pathological Researches, consisting of four members, together with the Treasurer, is elected annually in October; it is their duty to examine all claims for assistance made upon them by any member of the Society engaged in pathological research, and upon their being satisfied that the said research is in actual progress, and that it is so conducted and of such a nature as to benefit the science of pathology, they have it in their power to aid his purpose by the grant of such a sum of money from the funds of the Society as they may consider to be needed. Provided, always, that the result of such inquiries be contributed to the Proceedings of the Pathological Society; but in no case may they thus expend during the year more than a sum to be fixed annually at the first stated meeting in October in advance by the Society. The money drawn by the Committee is paid by the Treasurer on an order signed by the President, upon the written recommendation of the Committee.

Microscopical Society of Philadelphia.

ORGANIZED IN 1868.

This Society, after three largely attended preliminary meetings, decided to incorporate itself with the Biological Department of the Academy of Natural Sciences, under the name of the "Biological and Microscopical Section."

A permanent organization has not yet been effected.

The New Sydenham Society of London.

Honorary Local Secretary.—Dr. RICHARD J. DUNGLISON, 1116 Girard Street.

SECTION II.

MEDICAL SCHOOLS AND KINDRED INSTITUTIONS.

University of Pennsylvania.

NINTH STREET ABOVE CHESTNUT.

This Institution was organized in 1749, and received its present charter in 1766. It is in the hands of twenty-five Trustees, its corporators, of whom the Governor of the State is *ex officio* President. The Medical Department, with which alone we are here concerned, is supported by the fees paid by students attending its Lectures. It is under the control of the Medical Faculty. The class in attendance upon the lectures of the Session of 1867–8, numbered 408 matriculants; 150 of whom received the degree of Doctor of Medicine at the public Commencement held March 13, 1868.

The Session for the Medical Lectures begins on the second Monday in October, and ends early in March ensuing.

The Commencement for conferring the Degree of

Doctor of Medicine, is held by a special mandamus of the Board of Trustees, during the month of March.

Each candidate for the Degree of Doctor of Medicine must have attained the age of twenty-one years, have applied himself to the study of Medicine for three years, and been during that time the private pupil for two years, at least, of a respectable practitioner of Medicine. He must also have attended two complete courses of the following Lectures in this Institution:—

Theory and Practice of Medicine,
Anatomy,
Materia Medica and Pharmacy,
Chemistry,
Surgery,
Obstetrics and the Diseases of Women and Children,
Institutes of Medicine.

Medical students who have attended one complete course in a respectable Medical School, where the attendance on two complete courses is necessary to a degree, where the same branches are taught as in this, and which is placed upon the *ad eundem* of this school, are permitted to become candidates by an attendance here for one full course; the rules of graduation being in other respects observed. They are also exempted from the payment of fees upon attending a second term.

Graduates of Medical Schools, on the *ad eundem* list, by attending one complete course in this Institution, and complying with the regulations, are put upon the same footing with students who have at-

tended two complete courses here; that is, they may present themselves as candidates for graduation; also, if they attend a second time, the tickets will be free. Such graduates, if of five years' standing, are permitted to attend the course of Lectures, upon a general ticket of admission, free of expense, except the cost of the matriculating ticket. But this general ticket does not qualify for graduation.

Expenses.

Fees for the Course of Lectures . . .	$140
Matriculating Fee (paid once only) . . .	5
Graduating Fee	30

The Committee of the Trustees on the Department of Medicine are empowered to give annually gratuitous admission to six students who have attained the age of eighteen years, are of studious habits, and sufficient literary acquirements, who present respectable testimonials of good moral character, and whose circumstances do not enable them to pay the expenses of admission to said Lectures.

Applications should be addressed, under seal, to the above Committee, to the care of Cadwalader Biddle, Secretary of the Board of Trustees, No. 420 Walnut Street, Philadelphia, at any time before the third Monday in September, postage paid. On that day the Committee open and decide on the applications and testimonials of candidates, whose names will not be disclosed by the Committee.

Clinical Lectures are given by the Professors, in the

University Hall, four times each week, thus furnishing a course of instruction of a highly practical character.

University Dispensary.—The Dispensary of the University is open daily, and largely attended by patients, who are prescribed for throughout the year; it affords an additional opportunity by which each student may acquire skill in the diagnosis and treatment of disease.

Surgical Wards.—For the accommodation of such patients as require it, two Surgical Wards, with proper attendants, are provided in the College Building, so that capital operations, as lithotomy, amputation, etc., are frequently performed, and subsequently dressed and prescribed for in the presence of the class.

Practical Anatomy.—The Dissecting Rooms are open in the University throughout the year (except July and August), under the superintendence of the Professor of Anatomy and the Demonstrator. As dissection is now legalized in Pennsylvania, the cost of material is very small.

Practical Surgery.—The Operating Room is open during the Session under the supervision of the Professor of Surgery and his Assistants. The application of Bandages, the treatment of Fractures, and all Surgical Operations, can be here practised by each student upon the cadaver. Instruments, splints, and bandages are supplied free of cost.

Trustees.

The Governor of Pennsylvania,
Ex officio, President of the Board.

Rev. Albert Barnes,	Adolph E. Borie,
Rev. Benjamin Dorr, D. D.,	David Lewis,
George M. Wharton,	Rev. Chas. W. Schaeffer, D.D.,
Rev. Henry J. Morton, D. D.,	William Strong,
René La Roche, M. D.,	John Welsh,
John C. Cresson,	Peter McCall,
Frederick Fraley,	Geo. B. Wood, M.D., LL.D.,
Horace Binney, Jr.,	Alexander Henry,
Stephen Colwell,	Rt. Rev. W. Bacon Stevens, D.D.,
George W. Norris, M. D.,	Rev. Charles P. Krauth, D.D.,
James Bayard,	John Ashhurst,
J. I. Clark Hare,	Charles E. Lex.

CADWALADER BIDDLE, Secretary and Treasurer.

Professors.

George B. Wood, M. D., LL.D., Emeritus Professor of Theory and Practice of Medicine.

Samuel Jackson, M. D., Emeritus Professor of Institutes of Medicine.

Hugh L. Hodge, M. D , Emeritus Professor of Obstetrics and the Diseases of Women and Children.

FACULTY.

Joseph Carson, M. D., Professor of Materia Medica and Pharmacy.

Robert E. Rogers, M. D., Professor of Chemistry.

Joseph Leidy, M. D., Professor of Anatomy.

Henry H. Smith, M. D., Professor of Surgery.

Francis G. Smith, M. D., Professor of Institutes of Medicine.

R. A. F. Penrose, M. D., Professor of Obstetrics and the Diseases of Women and Children.

Alfred Stille, M. D., Professor of Theory and Practice of Medicine.

D Hayes Agnew, M. D., Demonstrator of Anatomy, and Assistant Lecturer on Clinical Surgery.

R. E. Rogers, Dean.

W. H. Salvador, Janitor Medical Department University of Pa.

Auxiliary Faculty of Medicine.

FACULTY.

Harrison Allen, M. D., Professor of Zoology and Comparative Anatomy.

Horatio C. Wood, Jr., M. D., Professor of Botany.

F. V. Hayden, M. D., Professor of Mineralogy and Geology.

Henry Hartshorne, M. D., Professor of Hygiene.

John J. Reese, M. D., Professor of Medical Jurisprudence, including Toxicology.

All students who have matriculated in the Medical Department, and have taken the tickets of two of the Medical Faculty, have the right of admission to the lectures. Attendance upon these lectures is not compulsory upon the students in the Medical Department.

The several courses consist of at least thirty-four lectures, delivered, at hours fixed by the Faculty, three times a week during the months of April, May, and June, commencing on the first Monday in April, and ending on the last Saturday in June.

A Diploma from the University is granted to those medical graduates, who, after attendance on a course of the lectures, undergo a satisfactory examination by the Faculty.

AUTUMN COURSE OF PRELIMINARY LECTURES FOR 1868.

This course will commence on Monday, September 7, and terminate on October 10.

The Lectures will be delivered as follows:—

Microscopy—JAMES TYSON, M. D.,
Microscopist to the Philadelphia Hospital.

Regional Anatomy—D. HAYES AGNEW, M. D.,
Surgeon to the Pennsylvania Hospital.

Physical Diagnosis—JAMES J. LEVICK, M. D.,
Physician to the Pennsylvania Hospital.

Diseases of the Skin—H. LENOX HODGE, M. D.,
Physician to the Children's Hospital.

Morbid Anatomy—WILLIAM PEPPER, M. D.,
Physician and Pathologist to the Philadelphia Hospital.

Admission free.

R. E. ROGERS, M. D.,
Dean.

Examinations in connection with the lectures at the Medical Department of the University, are given by the following gentlemen:—

Drs. Levick and Hunt. (The Class are examined on Obstetrics by Dr. John H. Packard; on Chemistry, by Dr. T. Hewson Bache.)

Drs. Bolling, Hutchinson, Hodge, and Cheston.

Drs D. F. Woods, J. S. Parry, and R. G. Barclay.

Dr. W. J. Carman.

Dr. W. C. Crooks.

Drs. Hickman, Tyson, and H. C. Wood.

Lectures are delivered by the following gentlemen:—

Dr. Hutchinson, on Auscultation and Percussion.

Dr. J. Solis Cohen, on Auscultation and Percussion, and on Laryngoscopy and Rhinoscopy.

Drs. Spooner and Getchell, on Obstetrics.

Dr. Herbert M. Howe, on Experimental Physiology.

Dr. W. Pepper, on Pathological Anatomy.

Mr. Clemmons Parrish, on Pharmacy.

General summer courses by Drs. Bolling, Hutchinson, Hodge, E. A. Smith, Cheston, Williams, Harlan, G. Pepper, W. Pepper, Harrison Allen, and E. Rhoads.

Jefferson Medical College

Was chartered April 7, 1826, as a branch of Jefferson College, Canonsburg, Pa.; created a separate and independent body corporate, under the name, style, and title of "The Jefferson Medical College of Philadelphia," with the same powers and restrictions as the University of Pennsylvania, April 12, 1838.

Its funds are derived from the fees paid by the students attending the lectures.

The college building is situated in Tenth Street, above Walnut, and contains, besides the lecture-rooms, wards fitted up for the accommodation of patients operated on at the surgical clinics, an extensive pathological museum, and a dissecting-room. The last session (1867–8) was attended by 353 matriculates, 159 of whom received the degree of Doctor of Medicine at the public commencement in March, 1868.

Regulations.—The session commences on the second Monday of October.

The examinations are so arranged as to permit the commencement for conferring degrees to be held as early in March as is practicable. There is likewise an examination of candidates for graduation during the first week of July. The degrees are conferred on the candidates who are successful at this examination, at the annual commencement following.

The candidate must be of good moral character, and at least twenty-one years of age. He must have attended at least two full sessions of lectures in some regu-

lar and respectable medical school, one of which, the last, shall have been in this College, and must exhibit his tickets, or other adequate evidence thereof, to the dean of the faculty.

He must have studied medicine for not less than three years, and have attended at least one course of clinical instruction in an institution approved by the faculty. He must present to the dean of the faculty a thesis of his own composition, correctly written, and in his own handwriting, on some medical subject; and exhibit to the faculty, at his examination, satisfactory evidence of his professional attainments.

The degree will not be conferred on any candidate who absents himself from the public commencement without the special permission of the faculty.

The hours of attendance at the clinics of this College, held during the winter, spring, and autumn, are so arranged as to permit the students to attend the clinics at the Pennsylvania Hospital and the Philadelphia Hospital.

Fee to each Professor, $20—in all $140.

Trustees.

Hon. Edward King, LL. D.
Hon. Jesse R. Burden, M. D.
John R. Vogdes.
T. S. Smith.
Rev. Joseph H. Jones, D. D.
E. B. Gardette, M. D.
Hon. John C. Knox.
Col. Charles M. Prevost.
Hon. J. Thompson.
Hon. Henry M. Phillips.
Hon. George W. Woodward.
Hon. James R. Ludlow.
Hon. James Campbell.
Anthony J. Drexel.
George W. Fairman.

Hon. Edward King, LL. D., *President.*
John R. Vogdes, *Secretary.*

Professors.

Charles D. Meigs, M. D., Emeritus Professor of Obstetrics and Diseases of Women and Children.

Robley Dunglison, M. D., Emeritus Professor of the Institutes of Medicine, etc.

FACULTY.

Joseph Pancoast, M. D., General, Descriptive, and Surgical Anatomy.

Samuel D. Gross, M. D., Institutes and Practice of Surgery.

S. Henry Dickson, M. D., Practice of Medicine.

Ellerslie Wallace, M. D., Obstetrics and Diseases of Women and Children.

B. Howard Rand, M. D., Chemistry.

John B. Biddle, M. D., Materia Medica and General Therapeutics.

J. Aitken Meigs, M. D., Institutes of Medicine, etc.

S. Henry Dickson, M. D., Dean.

J. M. Da Costa, M. D., Lecturer on Clinical Medicine.

William H. Pancoast, M. D., Demonstrator of Anatomy.

T. H. Andrews, M. D., Curator of the Museum.

William Watson, Janitor.

Summer Lectures.—To add to the many facilities afforded to the student who may be able to attend in the interval between the winter courses of lectures, a summer course has been instituted, which is conducted by members of the faculty and others. The course will begin early in April, and continue, with a recess in July and August, until the commencement of the winter session. The clinical department will be illustrated at the College, Wills Hospital, and the Philadelphia Hospital, by members of the Association, during their terms of service at these institutions.

The course is of a practical character, and will embrace important specialties in medicine and surgery, but does not count as a "session" of lectures.

Clinical Surgery,	Professor Gross.
Clinical Obstetrics,	Professor Wallace.
Chemistry applied to Toxicology,	Professor Rand.
Materia Medica and Therapeutics,	Professor Biddle.
Clinical Medicine,	Dr. J. M. Da Costa.
Visceral and Surgical Anatomy,	Dr. W. H. Pancoast.
Operative and Minor Surgery,	Dr. J. H. Brinton.
Ophthalmic and Aural Surgery,	Dr. R. J. Levis.
Venereal and Cutaneous Diseases,	Dr. F. F. Maury.
Pathological Anatomy,	Dr. W. W. Keen.

Fee for the course $35, for non-matriculates.
Registration fee, $5.

For further information apply at the College, or at No. 1005 Walnut Street.

F. F. MAURY,
Secretary of the Summer Association.

The following gentlemen are associated together for the purpose of giving examinations in connection with the lectures delivered at the Jefferson Medical College:—

Drs. James Taylor,	F. F. Maury,
T. H. Andrews,	S. W. Gross.
Drs. W. H. Warder,	H. Leaman.
J. A. McArthur,	
Drs. E. R. Hutchins,	R. M. Townsend.
O. H. Allis,	
Drs. W. W. Keen,	J. E. Mears.
Drs. D. D. Richardson,	J. Solis Cohen.

Percussion and Auscultation in Diseases of the Lungs and Heart, by James H. Hutchinson, M. D.
Microscope, by Horace Williams, M. D.
Urinary Deposits and Tests, by James H. Hutchinson, M. D.
Materia Medica, by Robert Bolling, M. D.
Diseases of the Eye, by George C. Harlan, M. D.

The Society of the Medical Institute meets once every month.

Clinical Instruction at the Pennsylvania Hospital without charge; also at the Episcopal Hospital, by Drs. Hutchinson and Smith; and at the Children's Hospital, by Drs. Hodge, Hutchinson, and Cheston.

A Dispensary for Diseases of the Heart and Lungs is conducted by Dr. Hutchinson, in connection with his lectures.

Fee for the whole course . . . Fifty Dollars.
Or, any part may be taken separately.

The Winter Course of Examinations, by Drs. Bolling, Hutchinson, and Hodge, begins with the Lectures at

the University of Pennsylvania in October, and continues till the close of the session.

Candidates for admission to the Army and Navy, and those desiring promotion to a higher grade, may obtain private instruction.

Fee for Office Students (one year) . . .	$100
Fee for One Course of Examinations . .	30

Class-Rooms, No. 920 Chestnut Street.

Apply to H. LENOX HODGE, M. D.

Summer Course of Medicine.

George Pepper, M. D., William Pepper, M. D.,
Harrison Allen, M. D., Edward Rhoads, M. D.

Special Instruction, by Dr. RHOADS, in Auscultation and Percussion, and in the Microscopical and Chemical Examination of the Urine.

Pathological Anatomy, General and Microscopical, by Dr. WM. PEPPER, illustrated with specimens from the valuable Pathological Museum of the Pennsylvania Hospital.

Diseases of Women, by Dr. GEORGE PEPPER, at the Lying-in Charity.

Examinations and Lectures during the months of April, May, June, and September.

Clinical Instruction in the Wards of the Philadelphia Hospital.

Fee for the Whole Course, $50.

Or any part of it may be taken separately.

Office Students will be received for the whole or part of a Three

Years' Course of Study, and will enjoy all the advantages of both the Winter and Summer Course of Instruction.

Class-Rooms, Ninth and Chestnut Streets.

Apply to DR. ALLEN,
University of Pennsylvania.
DR. PEPPER.

Philadelphia School of Anatomy.

CHANT STREET, TENTH ST. NEAR CHESTNUT.

(Rear of St. Stephen's Church.)

Systematic Courses of Lectures on Descriptive and Surgical Anatomy are delivered at this School, illustrated by Dissections, Models, Drawings, &c.

Microscopic Anatomy is taught with the Class Microscope.

Dissections are carried on under the direct and personal supervision of Dr. KEEN and his Assistant Demonstrators of Anatomy.

Courses on Operative Surgery, Bandaging, Fractures, and Fracture Dressings, are also given.

Special facilities are afforded candidates for the Army or the Navy, or others who may desire to take a Course on Operative Surgery or on Anatomy.

For the terms of the Special Courses, or for further information, apply at the Rooms, or to

J. E. MEARS, M. D.,
Or to W. W. KEEN, M. D.

The Philadelphia College of Pharmacy,

ZANE STREET ABOVE SEVENTH,

Was incorporated in 1822, "for the purpose of cultivating, improving, and making known a knowledge of Pharmacy, its collateral branches of science, and the best modes of preparing medicines and their compounds, and of giving instruction in the same by public lectures." (*Preamble to Charter.*)

Its officers are a President and two Vice-Presidents, a Secretary and Treasurer, elected annually; who, with sixteen Trustees, eight of whom are elected in March and eight in September, constitute a Board for the control of the affairs of the College.

It is supported by the initiation fees and contributions of its members; the school connected with it, by the fees paid by students.

The members of the College are resident, associate, and honorary. Any graduate in Pharmacy, conforming in his professional conduct to the code of ethics, may be elected a resident member by the Board of Trustees. Non-graduates who have served a regular apprenticeship, and conforming as above, may in like manner be elected after passing an examination before a Committee; or, after being established in business for at least six years, may be elected by the College on the recommendation of the Board.

The initiation fee is five dollars; the annual contribution is also five dollars.

The associate members are druggists and pharmaceutists residing in any part of the United States, and

elected under the same restrictions as resident members; one payment of twenty-five dollars is required of each person so elected.

The honorary members are elected by ballot by the College, on the recommendation of four members; they are "such persons as, from their knowledge of Materia Medica, Pharmacy, and their collateral branches of science, shall in the opinion of the College, merit that distinction."

Associate and honorary members have the same privileges as resident members, except that they have no right to vote or to hold office in the institution.

Every member of the College, on payment of one dollar, is entitled to a certificate of membership, to be returned on his ceasing to be a member.

The School of Pharmacy is under the control of the Board of Trustees, who appoint Professors to lecture on Materia Medica, Chemistry, Theory and Practice of Pharmacy, and other branches of science; also a Committee on Examinations, who, in conjunction with the Professors, decide as to the fitness of candidates for the degree. Upon the recommendation of the Committee, the Board may, by vote, confer the degree of Graduate in Pharmacy.

Business meetings of the College are held on the last Mondays in March and September; pharmaceutical meetings, on the first Tuesday in every month from October to March.

The members and graduates of the College are entitled to attend and participate in the proceedings,

and to bring with them any strangers interested in Pharmacy and its kindred sciences.

Contributions of rare and curious products are solicited, as also original papers, designed for publication or otherwise, the object being to excite and keep alive, among all who participate in the meetings, an interest in the progress and improvement of the science and art of Pharmacy.

A journal of such transactions of the College as may be ordered for publication, of original essays and of selections from scientific periodicals and books, is published bi-monthly. It is called *The American Journal of Pharmacy.*

The branches taught in the School of Pharmacy are General Chemistry, Practical Pharmacy, and Materia Medica. Two lectures on each branch are delivered every week, from the first of October to the first of March; thus making a full five months' course. The lecture nights are Monday, Wednesday, and Friday; and two lectures, one at 7 o'clock and one at 8 o'clock, are delivered upon each.

The class in attendance during the session of 1867–8 numbered 152; of whom 48 took the degree of Graduate in Pharmacy at the commencement held in March, 1868.

Qualifications for Graduation.—Every person upon whom a diploma of this College shall be conferred, must be of good moral character, must have arrived at the age of twenty-one years, have attended two courses of each of the lectures delivered in the College, or one course in the College, and one course in some

other respectable college of pharmacy; or when there is no such college organized in his locality, in some other respectable (medical) institution in which the same branches are taught; and have served out an apprenticeship of at least four years, with a person or persons qualified to conduct the drug or the apothecary business; at least three years and three months of which must have expired before the examination—of which circumstance he must produce sufficient evidence to the Board of Examiners.

He shall also be required to produce an original dissertation, or thesis, upon some subject of the materia medica, pharmacy, chemistry, or one of the branches of science immediately connected therewith, which shall be written with neatness and accuracy. The thesis, with the evidence of apprenticeship and diploma fee, shall be deposited with the senior professor of the school, on or before the twentieth of February of the session in which the application shall be made. He must also be recommended in writing by the Committee of Examination and the Professors jointly, and if his application be finally approved of by the Board of Trustees, he shall receive the diploma of the College.

Fees.

For each Course of Lectures	$10 00
Matriculation Fee (paid but once) . . .	2 00
Graduating Fee	5 00

Philadelphia Dental College,

108 North Tenth Street.

Chartered by the Legislature of Pennsylvania, April 23, 1863.

This Institution was established by the private enterprise of the first members of the Faculty (Professors C. A. Kingsbury, Thomas Wardle, J. H. McQuillen, J. Foster Flagg, and Henry Morton). The fees of the students in attendance upon the lectures are the only source of support.

During the five years which the College has been in operation the classes have increased from eleven students (the number in attendance upon the first session) to a matriculation list of seventy. Those in attend-

ance have been not only from all sections of our own country, but from Germany, England, the British Provinces, Cuba, etc.

The Dispensary and Laboratory of the College are opened in the middle of October, and preliminary lectures delivered daily during the remainder of the month. The regular Session of the Institution commences on the first of November, and continues until the close of the ensuing February.

With the view of combining theoretical and practical instruction, *four* hours of each day are devoted to attendance upon the lectures, which are amply illustrated by valuable anatomical (comprising a rare collection of specimens in human and comparative anatomy, papier-maché manikins, models in wood, drawings, wet and dry preparations), pathological, and mineralogical specimens, and the philosophical and chemical apparatus of the incumbents of the various chairs; vivisections on the lower animals, and the microscopic examination of the various tissues, are also made use of. In addition to the lectures, *four* hours are spent in *actual practice* by the students, under the supervision of the Demonstrators.

The Dispensary is furnished with an ample supply of well-constructed and comfortable operating chairs, so arranged as to command the best light. To these the students are assigned in regular order by the Demonstrator. Each student has a table and separate drawer for his instruments, which, with the exception of those to be used in extracting teeth, he is expected to procure.

The LABORATORY is a large and well-lighted room, with the most thorough and complete appliances for the construction of everything which properly appertains to mechanical dentistry.

A sufficient number of patients present themselves at the clinic to insure the acquirement of a wide experience on the part of the students, while every opportunity is afforded in the dispensary and laboratory for obtaining a practical knowledge of operative and mechanical dentistry. The services rendered are gratuitous.

Qualifications for Graduation.—The candidate must be of good moral character, and not less than twenty-one years of age. He must have had two years' private tuition, and have attended two full courses of lectures in a respectable dental or medical college, one of which shall have been in this institution; but written evidence of having had five years' practice in dentistry, inclusive of pupilage, will be regarded as equivalent to one course of lectures. He must present to the Dean a thesis on some subject relating to dental theory or practice; demonstrate to the Professor of Operative and Mechanical Dentistry his ability to perform dental requirements in these departments; deposit a specimen of mechanical dentistry, made by him in the institution, in the museum of the College; and submit to an examination by the faculty, upon which, if found competent, he shall receive the degree of Doctor of Dental Surgery.

Pennsylvania College of Dental Surgery.

S. E. corner Arch and Tenth Streets.

This Institution was founded in 1852, and assumed its present organization in 1856. Its regular sessions begin on the first Monday in November, and continue until the 1st of March.

Qualifications for Graduation.—The candidate must be twenty-one years of age. He must have studied under a private preceptor at least two years, including his course of instruction at the College. Attendance on two full courses of lectures in this Institution will be required, but satisfactory evidence of having attended one full course of lectures in any respectable dental or medical school, will be considered equivalent to the first course of lectures in this College. Also satisfactory evidence of having been in practice five years, inclusive of term of pupilage, will be considered equivalent to the first course of lectures.

The candidate for graduation must prepare a thesis upon some subject connected with the theory or practice of dentistry. He must treat thoroughly some patient requiring all the usual dental operations, and bring such patient before the Professor of Operative Dentistry. He must, also, take up at least one artificial case, and after it is completed, bring his patient before the Professor of Mechanical Dentistry. He must, also, prepare a specimen case to be deposited in the College collection. The operations must be performed, and the work in the artificial cases done at the

College building. He must also undergo an examination by the Faculty, when, if found qualified, he shall be recommended to the Board of Trustees; and, if approved by them, shall receive the degree of Doctor of Dental Surgery.

Candidates for Graduation who have not Attended Lectures.—Dentists who have been in continued practice since 1852, are eligible to be candidates for graduation without attendance on lectures. The candidate for graduation must present satisfactory evidence of his having been in practice for the allotted time, also of his good standing in the profession. He must prepare a thesis upon some subject connected with the theory or practice of dentistry. He must present specimens of his workmanship. He must undergo a satisfactory examination by the Faculty, on each of the branches taught by them; when, if qualified, he shall be recommended to the Board of Trustees, and if approved, shall receive the degree of Doctor of Dental Surgery. Of this class of graduates, the matriculation and diploma fee only are required.

School of Analytical and Applied Chemistry in the Polytechnic College of the State of Pennsylvania.

Market Street, west of Seventeenth, Philad.

Designed to afford facilities for acquiring a thorough knowledge of the science, which shall equal in appointments, cheapness, and thoroughness of instruction, those of European laboratories. Gentlemen may enter whenever there is a vacancy, and pursue any of the following courses, viz: Qualitative Analysis, Quantitative Analysis, Determinative Mineralogy, Assaying,

Metallurgy, Practical Pharmacy, Toxicology, the Examination of Healthy and Morbid Animal Fluids, etc. Students receive individual attention, and enjoy all the privileges of the School during the entire daily session, including that of attending the College Lectures on chemical subjects.

Medical students and practitioners will find rare opportunities for attaining a practical knowledge of such branches of Chemistry more especially pertaining to their profession. Apply to

ALFRED L. KENNEDY, M. D.,
Prof. Applied Chemistry.

CHARLES P. WILLIAMS, A. M.,
Prof. General and Practical Chemistry.

SECTION III.

HOSPITALS.

The Pennsylvania Hospital.

This venerable Institution was founded in 1750, and chartered in 1751, the corporators being styled "The Contributors to the Pennsylvania Hospital." Dr. Franklin, then a member of the Provincial Assembly, greatly aided in the benevolent scheme. The Hospital derives its support from voluntary contributions; some of the patients pay board, but the amount so received is trifling compared with the expenditures. It is situated on the square between Eighth and Ninth, and Spruce and Pine Streets, the entrance being on Eighth Street.

The Contributors (who become such on the payment of thirty dollars to the Institution) meet annually on the first Monday in May, to elect a Board of twelve Managers and a Treasurer. These Managers have charge of the affairs, not only of the Hospital in the city, but also of that for the insane in the country. They elect all the officers except the Treasurer.

The Medical Staff of the Hospital in town consists of four Attending Physicians, four Attending Surgeons, and three Resident Physicians—two in the surgical wards, and one in the medical. The term for each resident is eighteen months. An apothecary lives in the house, and has charge of the preparation and dispensing of medicines. All of these gentlemen, except the last named, render their services gratuitously. Two of the surgeons are on duty at a time, for a term of six months; the physicians serve singly for periods of three months. Each physician and surgeon pays a daily visit in the forenoon. Clinical lectures are delivered by them in the amphitheatre, from 10 A. M. to 12 M. on Wednesdays and Saturdays of each week.

Each physician and surgeon of the Hospital has the privilege of introducing, not exceeding eight of his pupils at one time, to observe the practice of the Hospital, and have the use of the Library, subject to the regulations of the attending Managers. Other students must pay two dollars for these opportunities; the money so collected being used for the increase of the Library.

The Library contains between twelve and thirteen thousand volumes, and is accessible to students attending the practice of the house, after the clinical lectures, as well as to all others who may have paid twenty-five dollars for this right for life.

Admission and Discharge of Patients.—Persons accidentally wounded or otherwise injured are received at all hours, subject to such rules on the matter

as the Managers may from time to time enact; provided always, that the accident or injury happen in Pennsylvania, and the patient is brought to the Hospital within twenty-four hours after its occurrence.

The number of patients to be admitted on the charity of the institution in this Hospital is now limited to eighty-five, exclusive of recent accidents as above.

These are distributed as follows:—

The men's medical ward is limited to twenty beds for poor patients.

The women's medical ward is limited to twenty-five beds for poor patients.

The men's surgical wards are limited to twenty beds for poor patients, exclusive of recent accidents.

The women's surgical ward is limited to twenty beds for poor patients, exclusive of recent accidents.

Room must always be reserved in the surgical wards for the reception of cases of accident; and if these increase beyond the capacity of the wards, the number of other poor patients must be reduced in proportion.

The physician and surgeon on duty have the power of admitting poor or charity patients in their respective wards, to the numbers above respectively allotted to each ward, subject to the general rules governing the admission of patients into this Hospital. The admission in all cases must be by printed certificate of name, age, place of nativity, occupation, whether married or single, and of the disease—under the signature of the doctor admitting. Whenever practicable,

the doctor admitting must also require security for the clothing of the patient, and his or her removal when discharged, from some friend or relation of the applicant, or refer the parties to the Steward for that purpose.

No person having any infectious or contagious disease can be admitted into the Hospital.

No person can be admitted on the charity of the institution whose case is judged to be incurable.

Pay patients may be admitted by the Steward, on the certificate of a Hospital physician, at the rates hereinafter established.

No person having a syphilitic disease, or mania-à-potû, can be admitted as a charity patient; or at a lower rate of board than four dollars per week for the former, and seven dollars for the latter. These charges are variable according to the ability of the patient or his friends to pay.

The lowest rate of board for pay patients (except as above) is $3.50 per week.

All pay patients are required to give good security for the payment of their board.

All patients are to be discharged as soon as they are cured; and all charity patients whose cases, after a reasonable time of trial, shall be judged incurable, are to be discharged.

Sailors who have had their wages taxed for the Hospital fund, are admitted, as to other hospitals, upon an order from the Collector of the Port.

The whole number of patients admitted since the establishment of the Hospital in 1752, is 80,968, of

whom 50,698 have been poor persons, supported, during their stay, by the Institution. (Including the Insane Department, the former number is increased to 86,428.)

Steward: William G. Malin.

Matron: Mary D. Sharpless.

The Pennsylvania Hospital for the Insane

Is under the same Board of Managers as the preceding, and its city office is at the Hospital in town, at 8th and Pine Sts. There are two departments of this Institution, the Male and Female, both under the same Physician-in-Chief, with one or more Assistant Physicians, a Steward, and a Matron, for each department. All these officers reside on the premises.

The buildings are situated between the Westchester and Haverford Roads, west of 43d St. The eastern or older one is devoted to female patients, the western one, opened in 1859, to males.

Admission of Patients.—All classes of insane persons, without regard to the duration of the disease or of its curability, are admitted into this Institution. Idiots, however, it may be stated, are not received; and for the epileptic, a special agreement should be made.

Cases of mania-à-potû are not received into this Hospital; but into that in the city, *exclusively.*

Preparatory to the reception of a patient, it is necessary to arrange the rate of board, etc., with a member of the Board of Managers, and to furnish a certificate of the patient's insanity from some respectable graduate of medicine, with a request from a near relative or friend that the individual may be received into the Institution. A full and detailed history of each case is also particularly requested.

For the payment of board, and removal of a patient when discharged, security is always required from some responsible resident of the city of Philadelphia. Payment for board is always to be made quarterly in advance; and if the patient is removed *uncured*, before the expiration of the first three months, and contrary to the advice and consent of the Superintending Physician, board is always required for thirteen weeks; otherwise, the charge is only for the time actually passed in the Hospital, provided that time is more than four weeks.

Interest will be charged on bills not paid till after the expiration of the quarter.

Large chambers and private attendants can always be supplied, if desired by the friends of the patients.

Before any patient can be admitted into this Hospital, a request in writing to that effect from some near relative or friend, and a certificate of the patient's insanity signed by a respectable graduate of medicine, is in all cases required.

A limited number of insane persons in indigent circumstances, whose cases are recent, and such as are believed to offer a fair chance of cure, may be admitted

as patients by the Attending Managers for a period not exceeding three months for each case, and treated without any charge. If promising favorably, and on the recommendation of the Physician, the period may be extended at the discretion of the Board. Security for the removal of such patients when discharged, and for their clothing whilst in the Hospital, is required of some responsible resident of the city of Philadelphia, or its vicinity. The number of these patients is from time to time regulated by the Board of Managers, and is now fixed at forty-six.

Regulations for the Admission of Visitors.—The Board of Managers, recognizing the duty of shielding the insane from all improper exposure, and regarding their right of protection from the gratification of an idle curiosity on the part of strangers, just as great, while residents of a hospital, as in their own dwellings, have adopted the following regulations for the admission of visitors:—

Visitors are not to be admitted before 10 o'clock A. M., after sunset, nor on the first day of the week. They are not to be admitted on the afternoon of Seventh day (Saturday) unless on special business with the Attending Managers, or one of the officers of the house.

All parts of the Hospital *not occupied by patients* may be shown and explained during the hours for the admission of visitors.

No visitor, unless in company with a Manager, can be taken into the wards, without permission from the Physician to the Hospital, or in his absence, from the

Assistant Physician; and when visitors are allowed to enter the wards, they must always be accompanied by one of these officers, by the Steward or Matron, or by some person delegated by the physician for the purpose.

As this Hospital cannot be allowed to become a resort for idle curiosity, it is hoped that the friends of patients, and all others, will carefully avoid prolonging their visits unnecessarily. And those employed in the care of the patients or in the domestic departments are to avoid inviting company to the Hospital.

The Pleasure Railroads and other contrivances for the amusement of the patients, are not to be used by visitors; nor are they to enter the museums or to pass through the pleasure grounds, except by special permission.

It is expressly forbidden to furnish any inmate of this Hospital with tobacco in any form; or to deliver to, or receive from a patient, any letter, parcel, or package, without the knowledge and approbation of the Physician.

Funds for the use of the patients are to be placed in the hands of the Stewards, to be used only under the direction of the Physician.

FRANKFORD (23D WARD), PHILADELPHIA,

Is an unincorporated Institution, supported by members of the Society of Friends.

Its legal title is "The Contributors to the Asylum for the Relief of Persons deprived of the Use of their Reason."

It was founded about the year 1814, and the first patients were admitted in May, 1817.

It is supported by contributions, donations, and legacies, and by income received for the board of patients. It has no endowment, but is aided to a limited extent by funds bequeathed for the special purpose, the income arising from which is applied to reducing the charge to patients in limited circumstances. It has never been aided by any appropriation from either city or State. The Institution is open for the reception of all classes of the insane, without regard to the duration or curability of the disease. It is proper to state, however, that idiots or persons affected with mania-à-potû are not considered suitable subjects for this asylum.

Its use was at first limited to members of the Society of Friends, but for many years past all religious denominations are admitted to participation in its benefits on equal terms with those for whom it was originally designed.

The government of the Asylum is vested in a Board of eighteen Managers, including a Secretary and a Treasurer. The officers appointed by the Board are

a Medical Superintendent, an Assistant Physician (now vacant), and a Matron.

For the admission of patients application may be made to any of the Managers, or to the Superintendent at the Institution. A certificate of insanity signed by a respectable practitioner of medicine, and a request in writing from a near relative, guardian, or friend of the patient, must accompany the application. Board must be paid quarterly in advance, and as security for such payment a bond signed by some responsible persons, one of whom at least must reside in or near Philadelphia, is required.

JOSHUA H. WORTHINGTON, M. D., Physician and Superintendent.

Hospital of the Protestant Episcopal Church in Philadelphia.

2649 N. FRONT ST. CITY OFFICE, 708 WALNUT ST.

Founded July 18, 1851.

This is a general hospital, supported by interest from moneys invested (received by bequest or donation), contributions from churches and individuals for

the maintenance of free beds, board paid by patients, together with thanksgiving offerings, and annual and special contributions.

It is under the control of a Board of twenty-four Managers, besides the Protestant Episcopal Bishop of the Diocese, who is *ex-officio* their President. The contributors, who become such by paying fifty dollars at one time into the treasury of the hospital, choose every year eight gentlemen, to serve as Managers for a three years term.

The Board of Managers choose annually four Attending Surgeons and four Attending Physicians, to serve each for three months in his turn. Three Resident Physicians, serving eighteen months each, and an Apothecary, constitute the rest of the Medical Staff. The Senior Resident Physician has charge of the Dispensary.

One ward, founded by bequest of Miss Grasby, and called the "Hannah Ward," is for the reception of patients with diseases of the chest; the receipts from the fund maintain at present ten patients.

Any individual or any church may, by the annual payment of two hundred and fifty dollars, acquire the right to one bed in the hospital, for a case, curable or incurable, provided that such case requires medical or surgical care, does not call for more than ordinary attendance, and is of such a nature as not to disturb the peace and quietness of the other patients. These beneficiaries are admitted upon orders from the parties maintaining the beds, or their agents.

Persons suffering from acute disease not contagious

or infectious, may be admitted by an order from the physician or surgeon on duty. "Recent accidents" are admitted at once, if brought to the hospital within twenty-four hours after the receipt of injury.

Sailors are admitted on the account of the Collector of the Port, as in other hospitals.

A large number of out-patients are prescribed for at the Dispensary, in the basement, daily (Sundays excepted), in the forenoon.

During 1867, 815 patients were admitted, which, added to 95 in hospital, makes a total of 915. At the Dispensary, 6065 patients were treated.

List of Officers.

BOARD OF MANAGERS.

Rt. Rev. Bishop Stevens, D. D., President *ex-officio.*

Term of Services expiring January, 1869.

John Bohlen,
Edward Hartshorne, M. D.,

Superintendent: S. R. Knight.

Matron: Mrs. A. M. Knisell.

Christ Church Hospital

Was founded in 1796, by a bequest from Dr. Kearsley, to which a munificent addition was made in 1789, by Joseph Dobbins, of Charleston, S. C. The building is situated on Belmont Avenue, on the west side of the Schuylkill; the city office is at 517 Locust St. This Hospital will accommodate about 100 inmates—"poor or distressed women of the communion" of the Episcopal Church.

Mode of making application for admission.—For this purpose, blank forms are, when requested, furnished by the Managers, upon which answers to the following points are required: Name of the applicant—Birthplace—Date of birth—Baptized, where, when, and by whom—Confirmed, where, when, and by whom—Communicant, in what church—Residence, with name of street and No. of house—Married or single—Children

now living, and, if any, their names and residences. There is also provided ample space on the forms for recommendations of an applicant. It is especially necessary that the recommenders should give their own addresses, in order that the Managers may make due inquiry into the suitableness of an applicant. It is proper to state, that the will of the founder expressly prefers "clergymen's widows before others," among the applicants for admission.

Although the benefits of this charity are intended for the church at large, its management is committed to six persons, chosen annually, three by the vestry of Christ Church, and three by the vestry of St. Peter's Church, but, by act of Assembly, the legal property is in Christ Church. Therefore, if any persons should be desirous of extending this charity, or of adding to it other purposes of a like nature, their gifts or bequests must be made to "The Rector, Church Wardens, and Vestrymen of Christ Church, in trust for Christ Church Hospital."

The following are the names and addresses of the Managers to whom application for admission should be made:—

James C. Booth,	U. S. Mint.
Charles Willing, M. D.,	No. 9 Portico Square.
Edmund A. Souder,	Dock St. Wharf.
D. Henry Flickwir,	4100 Walnut St.
Ed. L. Clark,	142 N. Delaware Avenue.
Robert M. Lewis,	436 Walnut St.

Francis West, M. D., *Physician*,	1512 Pine St.
C. Campbell Cooper, *Superintendent*,	517 Locust St.
George H. Kirkham, *Treasurer*,	232 Chestnut St.

Wills Hospital for the Relief of the Indigent Blind, and Lame.

RACE STREET ABOVE EIGHTEENTH.

Founded December 2, 1833.

This Institution is supported by a fund bequeathed by the late James Wills, and by occasional appropriations from the State. It is under the control of a Board of eighteen Managers, three of whom are appointed by the Select Council of the City, and three by the Common Council, yearly, to serve for three years.

Lectures and Practical Instruction in Ophthalmic Surgery are given by Dr. Levis, in November and December, at the Hospital.

A daily Clinic for out-patients is held by the Surgeons, and is largely attended. On Thursday, at 12 o'clock, operations are performed, and a clinical lecture is delivered. Private courses are also given by different members of the staff, who seek to make this a practical school of ophthalmic medicine and surgery.

Patients seeking admission must present themselves at the Hospital at 4 o'clock P. M. on Tuesday or Saturday. Out-patients may apply on any day except Sunday, at 11 A. M. Persons admitted from other States are required to pay board, unless exempted by the Visiting Managers.

The following is a statement of the Cataract Operations at this Hospital during 1867:—

Extraction.			Solution.			Suction.

Resident Surgeon: J. Marshall Paul, M. D.

Steward: Charles Oat.

St. Joseph's Hospital.

SEVENTEENTH AND GIRARD AVENUE.

Established in 1849.

This Institution is supported by voluntary contributions, and is under the charge and control of the Sisters of Charity. It is divided into Surgical, Medical, and Obstetrical wards; its capacity is now about one hundred beds.

In addition to the public wards, there are a number of handsomely furnished private rooms, which can be procured at various prices, by persons desirous of extra accommodations, where they can enjoy all the comforts of a well-regulated home, together with all the benefits to be derived from such an institution. The patients in those private rooms have the privilege of selecting their own medical attendant. Physicians and surgeons, who may have patients at hotels, boarding-houses, or private houses, can avail themselves of this opportunity by sending such patients to this Institution, where they are certain to receive that skilful nursing, tender care, and ceaseless attention which are the distinguishing characteristics of the Sisters of Charity; known now all over the world for their kindness, philanthropy, self-sacrificing devotedness to the interests of religion and suffering humanity.

Although this Hospital is ranked among the Catholic charities of this city, still patients of all creeds and climes (except such as are afflicted by contagious diseases) are admitted, and the inmates (if they desire it) can avail themselves of the services of spiritual

advisers of their own selection, and their wants (if destitute) are gratuitously supplied.

Since 1859, 4281 patients have been treated in this Institution, and of that number 1773 were admitted free; besides the above number of free patients no less than 800 destitute persons have received, during the year, meals from the charitable hands of the Sisters.

The following statistics are from the Report, Jan. 1867 (the last one issued):—

Summary of 643 *Cases Treated in the Hospital for the year ending December* 31*st*, 1866.

Cured	411	
Relieved	62	
Removed	28	
Died	82	
Remain	60	
Total	643	
Pregnant women delivered safely		4
Infants born in health		4
Of the 643 patients there were—		
Pay patients	440	
Poor patients	203	
	643	

The cost of board in the wards for male pay patients is $5 per week. In consideration of their more limited means females are charged $4 per week.

Applications for admission may be made at the Hospital, or to the medical or surgical officer on duty. Recent accidents are admitted at once into the wards.

Surgical advice is given gratis on Mondays, Tuesdays, Thursdays, and Fridays, at 11 o'clock A. M.

Diseases of the Eye are treated on Wednesdays and Saturdays at 11 o'clock A. M.

List of Officers.

The Charity Hospital of Philadelphia.

Buttonwood Street above Thirteenth.

Chartered 1861.

Supported by private subscriptions; the use of the building is granted by the city. A small amount is required to be paid as board by patients; the Trustees hope soon to be able to receive urgent cases gratuitously.

Daily clinics are held at the hospital, from 12 M. to 1 P. M., when advice and medicine are given gratuitously to the worthy poor.

Respectable married women are received into the hospital for confinement.

During the year 1867, 2726 patients were prescribed for at the clinics and supplied with medicines. There were 34 house patients, and 5 deaths.

Counsellor: Richard Ludlow, Esq.

St. Mary's Hospital.

CORNER FRANKFORD ROAD AND PALMER STREET.

Established in 1866, by the Sisters of the Third Order of St. Francis.

The building occupied by this Institution was purchased at a cost of $30,000, two-thirds of which were raised by donations, while the rest remains on mortgage. The Hospital is supported entirely by the contributions of the charitable, obtained mainly through an active society of German ladies, styling itself "The St. Mary's Hospital Association."

There are 80 beds, 65 of which are now occupied.

All cases of serious recent accident are received without charge, and a limited number of obstetric cases are taken at a small rate of board. Ten free beds for worthy indigent sick are reserved and supported by the Sisters; but though this number has been specified, admittance has never been refused to deserving applicants because of inability to pay.

It is in contemplation to establish special clinics.

Medical Staff: Drs. J. Cummiskey, W. Lehman Wells, C. P. LaRoche. (One vacancy.)

Surgical Staff: Drs. A. D. Hall, G. C. Harlan, W. W. Keen. (One vacancy.)

Obstetrical Staff: Drs. E. C. Dougherty, A. H. Fish.

Resident Surgeon: R. W. Hargedine.

The German Hospital of the City of Philadelphia.

TWENTIETH AND NORRIS STREETS. ENTRANCE ON TWENTIETH ST.

Incorporated April, 1860. Opened November, 1866.

The members of this corporation are such persons as may be elected by ballot, pay five dollars admission, and three dollars annually; fifty dollars paid in in one sum constitutes a life-member; one thousand dollars constitutes a life-member, with a right to have constantly one patient in the wards. Corporators who are "citizens above the age of twenty-one years" are eligible as managers.

Any association or corporation, paying in one hundred dollars or more in one sum, may acquire one vote at the annual election. Every charitable, beneficial, or other corporation or association, contributing with the assent of the Board of Managers the sum of fifteen hundred dollars, is entitled to have one of its sick members constantly in the wards on its recommendation, and on payment of the further sum of one hundred and fifty dollars annually, such association or corporation has the privilege of the admission of another patient.

On the last Wednesday in December of each year, the corporators elect eight Managers, to serve a three years' term. By the twenty-four Managers thus appointed, the medical officers are chosen; they must "speak the German language with facility."

Patients are admitted without exclusion of country,

creed, or color. The hospital has accommodations for fifty.

Patients, to be admitted into the Hospital (except in cases of recent accident), must be residents of the city of Philadelphia, or immigrants who have not acquired a permanent residence; if poor, they are treated gratuitously.

For pay patients the charge is four to six dollars per week, or more in special cases, as decided by agreement between the applicant and the Steward, with the consent of the Visiting Committee. Payment must be made, or security given, for four weeks in advance. Unmarried persons, by regular monthly payments of twenty-five cents, can acquire the right of free admission to the Hospital in case of sickness. The right is lost by three consecutive failures to pay the contributions.

German patients are admitted in preference to others; no one is admitted with infectious, pestilential, or incurable disease.

One-tenth of the beds in the Hospital are reserved for the poor. Such persons are required to render such service as they are fit for, if called upon.

A distinct ward is assigned to colored persons.

Visiting days for the friends of patients, Sundays and Thursdays, from 10 A. M. to 2 P. M. Special privileges are granted by the Assistant Physician and Steward.

President of the Board of Managers: Joseph M. Reichard.
Secretary: Frederick Steeb.

Attending Physicians: Drs. Albert Fricke, Julius Schrotz, Emil Fischer, and Julius Kämmerer.

Attending Surgeons: Drs. C. Beeken, Theodore A. Demmé, and Joseph Koerper. (One vacancy.)

Resident Physician: Dr. Augustus F. Müller.

The Jewish Hospital of Philadelphia.

WESTMINSTER AVENUE AND HAVERFORD ROAD.

The society was organized on the 19th of February, 1865, and the Hospital opened for patients August 6, 1866. It is supported by the Jewish Hospital Association (an incorporated society whose members pay five dollars per annum), and such private contributions from them and others as may be received from time to time. It has never had any appropriations from city or State. Though sectional in *name*, it is open *free* to all applicants, without reference to religious belief. Its managers know no distinction in birth or religion, but admit all the suffering who apply, free of charge, if unable to pay. If they are willing to pay, the charge is five dollars per week. The object of the Hospital is to secure to people of the Jewish faith certain regulations in reference to diet and observance of Sabbath which they cannot obtain in other institutions. Those seeking the benefits of the Hospital must present a physician's certificate, stating their disease, to the Visiting Committee of the month, who thereupon furnish the applicant with a permit to the Resident Physician, who admits the patient after examination.

The present officers are:—

President: Alfred T. Jones.

Vice-President: Abraham S. Wolf.

Treasurer: S. Weil.

Secretaries: M. Sulzberger and H. J. Hunt.

Directors: S. Hecht, Lucien Moss, Dr. T. Isaacs, M. Thalheimer, M. Rosenbach, A. Goldsmith, W. B. Hackenburg, Sol. Gans, Jos. Einstein, Judah Levy, S. Alexander, and L. Hano.

Steward and Stewardess: Mr. and Mrs. S. W. Kronheimer.

Resident Physician: A. Feldstein, M. D.

The Children's Hospital of Philadelphia.

TWENTY-SECOND AND LOCUST STREETS. FOUNDED IN 1855.

This Institution is supported by subscriptions, donations, legacies, and board of patients.

Children under twelve years of age, suffering from non-contagious disease or from accidental injury, are admitted upon application to the Attending Physician, who visits the Hospital daily at 12 o'clock M. (Sundays excepted).

The following statistics of the business of the Hospital are extracted from the Annual Report of the Attending Physicians, for 1867, presented to the Board of Managers, January 10th, 1868:—

A retrospective view of the career of the Hospital shows, that in twelve years 1033 in-patients, and 24,445 out-patients, have been succored at a cost of $31,266, and the Managers now hold a hospital building, which, with ample insurance, cost $34,127, an invested capital of $4205, a small cash balance of $279, with which to begin this year, and no debts

The Preston Retreat,

HAMILTON STREET BETWEEN TWENTIETH AND TWENTY-FIRST STS.

Founded in 1836.

This institution, which is supported by an income from estates left by the late Dr. Jonas Preston, is a lying-in charity for married women of good character, but in indigent circumstances, who are near the time of their confinement, where they may be received and provided with proper obstetric aid for their delivery, and with suitable attendance and comforts during the period of their convalescence. It has accommodations for about forty patients.

The use of the building was for many years allowed to the Managers of the "Foster Home Association."

It was first opened as a lying-in hospital in 1866, and during that year received 40 patients. In 1867 there were 65 admissions. Up to June, 1868, 150 inmates have enjoyed the benefits of the institution.

Patients are admitted about two weeks before the expected time of their confinement, and are allowed four weeks in which to convalesce. Since each applicant is required to give references as to character, and furnish other proofs of her respectability, and, after becoming an inmate, is under observation for at least six weeks, this institution is enabled to supply the community with healthy and reliable wet-nurses.

Women desiring to enter this institution as patients are requested to make personal application at the Retreat at least one month before the expected time of their confinement. Applications for admission can be made upon any day of the week from 7 to 10 A. M., and from 1 to 3 o'clock P. M.

The Philadelphia Orthopædic Hospital.

INCORPORATED 1867.

This institution is located at No. 15 South Ninth St. It is supported by private contributions. The classes of cases which it is contemplated to treat include club-foot, hip and spinal diseases, and bodily deformities in general. Patients may apply daily from twelve to one o'clock, when advice and treatment will be furnished gratuitously to the poor.

Philadelphia Almshouse Hospital.

DARBY ROAD BELOW WALNUT STREET. CITY OFFICE, 42 NORTH 7TH ST.

This hospital is supported by the city, and, like the Almshouse, of which it is a department, is under the charge of the "Board of Guardians for the Relief and Employment of the Poor of the City of Philadelphia." It embraces medical, surgical, and obstetrical wards, together with a Children's Asylum. The Insane Hospital is under the charge of a Medical Superintendent, with an assistant. The medical staff of the establishment comprises four surgeons, five physicians, four accoucheurs, eleven resident physicians, a recording clerk, a curator, and a microscopist.

Out-door relief is afforded to the poor upon application to the visitors of the various districts, or to any of the Guardians. For admission into the Almshouse application may be made at the city office, or at the institution itself.

In order to exhibit the mode of working of this entire system, the following extracts from the rules adopted by the Board in 1861 are given:—

Physicians and Apothecaries for the Out-Door Poor.

At the request of a Guardian or Visitor, the physician for the district shall attend each and every case of whatever nature or kind it may be, that requires medical assistance. He shall direct the necessary medicines to be prepared by the apothecary of his district, and shall bleed whenever that operation is necessary.

The physician shall, when notified by a Guardian or Visitor, examine any applicant for relief, and give a certificate of the applicant's state of health, and ability to procure a livelihood.

The physician shall, immediately after the receipt of a Guardian or Visitor's order, visit the pauper, and continue to attend until the termination of the case; he shall make immediate written report to the Visitor of the district of such cases as, in his opinion, do not require public aid, and shall, once in every month, report to the Visitor the number and condition of the patients under his care during the past month.

Each physician shall annually report to the Board of Guardians, at the first stated meeting in July, a list of all the sick placed under his charge during the past year, in the prescribed form.

The out-door apothecaries shall furnish medicines from their own stock, in compounding and preparing prescriptions ordered by the out-door physicians. The prescriptions shall be placed on a file, and at the expiration of each quarter, a bill with the vouchers shall be furnished to the apothecary of the house, who shall compute their value at wholesale prices, and submit the same to the Hospital Committee for approval, previous to being presented to the Committee on accounts. It is to be understood that the salary paid to out-door apothecaries is a full consideration for services rendered, and the medicines furnished by them shall be at cost prices.

Upon any application for an order of admission into the Almshouse, or to an out-door physician for medical attendance, it shall be the duty of the Visitor to carefully examine into the case, and, if satisfied of its necessity, he may grant an order accordingly, reporting to the Board of Visitors all orders given for medical attendance, except cases of bastardy, which shall be referred to the out-door agent.

Is shall be the duty of the Visitor, before giving an order for admission into the Institution of any person alleged to be insane, to require the certificate of a respectable physician that the person for whose admission the application is made is really insane, and that restraint and medical treatment are necessary for his or her recovery, which certificate, with the order, shall be transmitted to the house agent; and he shall furthermore report such facts as he may be able to obtain, with regard to the patient's former life and habits, and the causes which led to his or her insanity.

It shall be the duty of the Visitor, when application is made to him for the interment of a poor person, to inquire into the necessity of the case; and should he judge it proper, he shall then give an order upon the out-door agent to provide for their burial.

Visitors shall ascertain whether there are any children relieved by them, or belonging to parents by them relieved, who have not been vaccinated, and if they find any such, they shall require that application be made to the vaccine physician of the district, to have it done immediately; and if the parent or nurse should refuse or neglect to comply with the request, the temporary relief granted them shall be withheld.

The Visitors shall devote their whole time to the duties of their office, and they shall follow no other business or occupation without the permission of the Board.

Visitors shall have authority, after careful examination, to grant orders for sending to the asylum, foundling and destitute children. Such orders shall specify the name and age of the child, and the names of the parents of such children, as far as can be ascertained, with other particulars of the case, and every order shall be accompanied by a certificate from some respectable physician, that the child is free from any contagious disease.

Rules and Regulations for Hospital and Insane Department.

The Hospital shall be called "The Philadelphia Hospital," and the Insane Department shall be called "The Insane Department of the Philadelphia Hospital."

No patient shall be placed in any of the medical or surgical wards of the Hospital, until he or she shall have been seen and examined by the attending, or resident physicians, and no person shall be admitted or confined in the Insane Department, unless the Resident Physician thereof shall first have certified that, on examination, the person for whose admission application is made is insane, or deprived of the use of his reason, and on that account is a suitable subject; and all such admissions shall also be subsequently examined by the Committee on Insane Department, and

the necessary blanks shall be printed in accordance with the above Rule.

No pauper shall be employed as nurse in the Hospital, Insane Department, or Children's Asylum, and the committees having special charge of said departments are requested to employ persons for nurses of known integrity, and steady and temperate habits, and for a reasonable compensation.

No cooking shall be done in any of the wards of the Hospital or Insane department, and one principal cook shall be appointed for the kitchen in the men's and another for the kitchen in the women's division, with a suitable number of assistants; the diet for each ward shall be fixed before nine o'clock A. M., of each day, in order to allow time for the preparation of the articles of diet, and no food shall enter the wards, except by the direct order of the physicians having charge of the wards.

The gates separating the yards of the different departments of the institution from those of the men's and women's Almshouses, shall be kept constantly closed and locked.

The keeper of the outside Hospital gate is directed not to suffer ingress or egress to any person, except a sick pauper and the person accompanying, without a special order from a Guardian, attending Physicians of the Medical Board, Steward, or Matron.

The wines and liquors used for medical purposes, in the Hospital Department shall be placed under the charge of the Storekeeper, and given out only on prescription from the attending Physicians of the medical department, and the Storekeeper to keep a book to show the quantity and kind of liquor received and distributed by him, and lay the same before the Committee on Hospital, weekly.

The convalescent patients, and those afflicted with chronic diseases, shall not be permitted to visit the other paupers in the establishment, and all intercourse between the two classes is strictly prohibited.

With a view to uniformity and certainty in regard to medicines, all preparations of a standing kind shall be according to the formulæ of the United States Pharmacopœia.

All pauper patients in the Hospital or Insane Department, who

are capable of performing labor, shall be sent daily to the House of Employment.

In order that the diet books shall always exhibit a fair statement of the diet of the wards, it shall be the duty of the attending Physicians of the Medical Board in charge, to write out at large the diet of the medical wards every day, and of the other wards every Tuesday and Friday, and to revise and date these on the intermediate days. The Storekeeper shall not regard any diet book not signed and dated by the attending Physician of the Medical Board in charge.

There shall be attached to the Hospital a drunkard's ward, for the reception of mania-à-potû cases, and such others as the attending Physician of the Medical Board shall direct.

Physician of the Insane Department.

The Physician of the Insane Department shall reside on the premises, and have, under the direction of the Committee on Insane Department, the charge and general supervision of that department; and every person and thing therewith connected, shall be subjected to, and at all times under his immediate control. He shall enforce all the rules and the regulations, grant liberty to, and preserve strict order among the patients and assistants in his department. He shall suspend and report pauper assistants, who do not conduct themselves in an orderly, sober, and submissive manner, to the Steward for punishment. All persons under his charge receiving salary shall obey his orders.

He shall visit the patients morning and evening, and at other times when it may be necessary. He shall keep a register, in which the name, age, birthplace, habits, &c , of each patient, together with as full a history of his or her disease as can be obtained, shall be recorded.

It shall be his duty, whenever he deems it advisable, to request the attendance of the Consulting Physician or Surgeon of the Hospital.

He shall prevent any unnecessary use of medicines, and shall see that all medicines ordered for use in the wards, are securely

kept by the nurses under lock and key, and administered personally by them, or by a reliable assistant, according to his directions.

He shall supervise the general diet of the Insane Department, and see that all necessary provisions are supplied; he shall rearrange the housekeeper's diet book, at least once a month, and in order that the diet books shall always exhibit a fair statement of the diet of the wards, it shall be the duty of the Physician to write out, at large, the diet of the medical wards every day, and of the other wards every Tuesday and Friday, and revise and date these on the intermediate days.

He shall have power to grant liberty to such of the patients in the Insane Department as he may think proper (unless such patients are debarred leave of absence), such liberty not to extend beyond one month.

He shall make a weekly report in writing to the Committee, of the names of all patients received during the preceding week, together with their birthplace, age, social condition, causes of insanity, and such other information as is attainable. He shall in like manner, report the names and condition of those leaving the Institution.

In the month of January, of each year, he shall communicate to the Board of Guardians, the number of patients who have been under treatment during the preceding twelve months; this statement shall be in tabular form, and give in detail the results of treatment, and it shall be accompanied by such observations and suggestions as in his judgment may seem called for.

No insane patient who has not a legal residence within the limits of the Poor District of the city of Philadelphia, shall be admitted into the Insane Department of the Almshouse as a pay patient.

Medical Board.

The medical Board of the Philadelphia Hospital shall consist of four Physicians, four Surgeons, and four Accoucheurs. They shall elect annually, by ballot, a President and a Secretary. The latter shall keep regular minutes of their proceedings.

The Meetings of the Medical Board shall be *stated* and *special;* the former to be held quarterly on the first Monday of January, April, July, and October, at 4 o'clock P. M., and the latter at any time, by a call of two members. The Secretary shall give written or printed notice to each member of every meeting two days previous, and in case of special meetings, specify the business to be transacted. Five members shall constitute a quorum.

The entire charge of the Medical treatment of the patients shall devolve upon the Medical Board; the member on duty of each staff being responsible for the proper management of all cases under his care, during his term of service.

The Hospital shall be divided into three departments, viz: Medical, Surgical, and Obstetrical.

The term of each Physician, Surgeon, and Accoucheur shall consist of three consecutive months, each staff regulating the order in which its different members shall serve.

It shall be the duty of the Physician, Surgeon, and Accoucheur in attendance, to visit the Institution *four* times a week, or oftener if necessary.

Each Physician, Surgeon, or Accoucheur, before completing his term of service, shall notify his successor, whose duty it shall be to accompany him on his last official visit, in order to receive all necessary information in regard to the patients of their respective departments.

No capital operation shall be performed contrary to the will of the patient; nor then, until a consultation of all the Surgeons shall be called, unless delay imperil the life of the patient, in which case the Surgeon on duty may dispense with a consultation.

In case of the inability of either of the Physicians, Surgeons, or Accoucheurs to attend to his duty, he shall secure some other member of his staff to supply his place until such inability be removed.

In case of the death or resignation of any member of the Medical Board during a period of service, it shall be the duty of the Physician, Surgeon, or Accoucheur next in order of rotation, to attend to the duties of the wards until such vacancy shall be filled.

All dereliction of duty on the part of Resident Physicians or Nurses shall be reported by the Medical Attendant to the Hospital Committee.

Applications for *extra* articles of clothing must be signed by the Physician, Surgeon, or Accoucheur on duty, and countersigned by the Steward.

All discharges of patients shall be to the out wards, and the order shall be signed by the Medical Attendant in whose department they are, and no patient, whether cured or considered incurable, shall be discharged without his approbation.

No Autopsy shall be made without an order signed by a majority of the class of the Medical Board in whose department the death may have occurred, and then only for the advancement of medical science. All examinations which may be deemed essential by the Attending Physician, shall be made with the greatest care and delicacy, nor shall any one have the right to interpose any obstacles to such examination: Provided, the order to make such post-mortem examination is countersigned by the Steward or Chairman of the Hospital Committee.

It shall be the duty of the Physicians, Surgeons, and Accoucheurs to inquire into the state of the instruments and apparatus for their respective departments, and report to the Hospital Committee such things as may be wanting.

Each member of the Medical Board shall have the privilege of introducing four pupils to observe the practice of the Hospital.

The Medical Board shall elect by ballot, three of its members, one from each staff, to examine the applicants for the position of Resident Physician, in the presence of such of the Medical Board as wish to attend, and report the result of such examination to the Board of Guardians.

A printed copy of the Rules for the Medical government of the Hospital shall be furnished to each Physician, Nurse, Steward, and Matron; and the Physicians, Surgeons, and Accoucheurs shall have power to establish rules for the regulation of their respective wards, to be framed and hung up therein, subject to the approval of the Hospital Committee.

The attending Physician on duty shall meet the Hospital Committee once a month, to confer in reference to the Hospital department. On leaving a ward, he shall in no wise alter or destroy, or permit to be altered or destroyed, his prescriptions.

The Medical Attendance shall give to the Secretary of the Medical Board their quarterly report within one month from the expiration of their term of service, and it shall be the duty of the Secretary to make out an annual report of the same for publication.

Resident Physicians.

There shall be elected by the Board of Guardians, at their second stated meeting in March, 1862, eight Resident Physicians, four of whom shall serve for one year, and four for six months, from those recommended by the Medical Board after examination. Semi-annually thereafter, four Residents shall be elected to serve for one year.

The position and authority of the Resident Physicians are subordinate and limited; subordinate to the Medical Board, whose directions they are required to receive and carry out in all things touching the medical treatment of the patients, or relating to the medical department of the House, and limited and defined by the rules of the Board of Guardians for the government of the Resident Physicians.

Every Resident Physician elect, before entering upon the duties of his office, shall deposit the sum of one hundred dollars in the hands of the Treasurer, to be forfeited to the use and benefit of the Institution, in case of dismissal or resignation; but to be returned to those who serve their full term in a satisfactory manner.

The Resident Physicians shall be provided with rooms, board, washing, fuel, and lights, in the Institution, under the direction of the Steward, free of expense.

Each department of the House shall have two Residents, who shall remain in each three months, and pass in rotation, as directed by the Medical Board.

The Resident Physicians shall visit their respective wards *twice*

daily, morning and evening, at the hours designated by the Medical Attendant, and shall so arrange among themselves that both of the Physicians in the same ward shall never be absent from the House at the same time.

No surgical operation, except such as may be designated by the Attending Surgeon, shall be performed by the Resident Physicians, nor shall they employ any obstetrical instruments with a view to delivery, unless under the supervision of the Accoucheur on duty.

It shall be the duty of the Residents to accompany the respective Medical Officers during their official visits to the Institution, and to be provided with ward books, furnished by the Board of Guardians, in which they shall carefully record all medical, dietetic, and other directions of the visiting Medical Attendant, under their appropriate heads.

The Residents shall attend alternately on the receiving ward, each having his day of service fixed, which may be determined among themselves, and no resident shall, under any excuse, leave the Hospital on his receiving day, or fail to answer the summons to the receiving ward with as little delay as possible.

It shall be the duty of the Resident Physicians of each ward to make out a Quarterly Report, which, after being signed by the Medical Attendant on duty for those months, shall be handed to the Secretary of the Medical Board within two weeks after the expiration of the quarter.

All temporary substitutes shall be appointed by the attending Physician of the Medical Board, subject to the approval of the Hospital Committee.

It shall be the duty of the Residents of the different wards, to take charge of and keep in order all the instruments belonging to their respective wards, and they shall be accountable to the Hospital Committee for their loss or abuse; they shall furnish an inventory of the instruments to the Hospital Committee upon leaving their wards.

The Residents, by permission of the Medical Attendant, may prescribe in the absence of the visiting Medical Attendants, and may even modify or change their prescriptions when urgent rea-

sons exist for so doing, but shall report all such changes to the Attending Physicians at their next visit. In all cases requiring the immediate presence of any member of the Medical Board, they shall notify the Steward of the same, who shall, without delay, communicate the required information through a messenger.

It shall be the duty of the Residents in the several wards, to make all Autopsies which may be directed by the members of the Medical Board on duty, and they shall always, in such cases, inform the other Residents of the House, of the examination, that they may participate in any advantages which may be derived therefrom.

The Residents shall, if required, copy all prescriptions from the ward books, and hand them with the least possible delay to the Apothecary. They shall cup, bleed, and superintend the application of leeches. In the absence of both Apothecaries, they will act as assistant Apothecaries, and see that the medicines put up for the several wards are properly administered by the nurses in charge of them.

Two Resident Physicians shall serve in the out wards alternately for three months, the time for such service being determined among themselves, but should any of the inmates of these wards be seriously indisposed, they shall send them to the receiving wards, thence to be sent to the proper ward.

Blank forms for the purpose of describing the condition of the patients on their admission to the Hospital shall be kept ready for each ward; and it shall be the duty of the Residents connected with the ward, immediately on the admission of a patient, to fill up a form with a clear statement of the symptoms and previous history. This statement, together with an account of the intermediate treatment, shall be handed to the attending Officer at his next visit.

The Resident Physicians shall perform all such other duties, in addition to those contained in the foregoing sections, as the Medical Attendant may consider necessary for the better regulation and government of the Hospital. All matters in conflict between the two residents of the same ward, in any way appertaining to the

government of the ward, the treatment of patients, the control of the nurses or assistants, shall be determined by the attending Physician on duty.

All vacancies by the death or resignation of Residents, shall be filled by the Medical Attendant on duty, until otherwise provided for by the Board of Guardians.

Any Resident who shall, knowingly, send a patient from the Receiving ward, to a ward to which he does not properly belong, will be liable to suspension, by either of the Medical Attendants interested. Removal of patients from one ward to another shall be made only by the attending Physician, and doubtful cases are to be decided by consultation with the attending Physician to whose ward they are to be transferred.

In case of accepted resignation or death of a Resident Physician, the vacancy shall be filled from those previously recommended by the Medical Board, when practicable.

No Resident Physician shall be allowed to treat any patient needing continued medical attention, in the out wards, but shall transfer them without delay to the proper ward, unless otherwise directed by the Committee on Out Wards.

Insolent or insubordinate conduct in any manner, to any member of the Medical Board, by any of the Resident Physicians, shall be reported to the Hospital Committee at their next meeting after the offence has been committed.

A violation of any of the foregoing rules by a Resident Physician, will subject him to suspension by the Attending Physician, which suspension shall be reported to the Hospital Committee at their next meeting.

Apothecary and Assistant.

It shall be the duty of the Apothecary, under the direction of the Hospital Committee, to take charge of the medical stores and all articles appertaining to the apothecary's shop and laboratory, see that the same are kept in proper order and repair, keep an inventory thereof, and report to the Hospital Committee its condition quarterly. He shall report to the committee a list of articles

wanted for the use of the Hospital, with their quantities as they may be required, and make purchases thereof under their direction; he shall attend to putting up the prescriptions of the physicians, and see that all tinctures, liniments, syrups, ointments, plasters, and other preparations usually expected of an apothecary to prepare, are carefully and correctly made; he shall carefully preserve all prescriptions that are put up in the shop, and enter in the book the names of all those who receive frequent and regular allowances of opium and spirituous tinctures. He shall report at the first stated meeting in January the number of prescriptions he has put up during the year, and the number furnished to the Hospital, Insane Department, Children's Asylum, and Out Wards respectively.

It shall be his duty to register in a book provided for that purpose all the medicine purchased from time to time for the use of the Institution, and report to the Board, on the first stated meeting in January, the quantity and cost of such medicine purchased during the last year.

The Apothecary shall not give, or permit any other person to give, any medicines or tinctures, to any nurse or pauper whatever, unless the same is ordered by one of the Physicians or Surgeons.

In cases of urgent necessity, medicines may be procured by the Apothecary, without an order from the Committee on Hospital; but in such cases the same must be reported by the Apothecary at the next meeting of the committee.

The Apothecary shall, on the written requisition of any member of the Medical Board, furnish, from time to time, such quantity of liquor, tinctures, and opium for the closet in the shop, at night as he may require, and the same shall be regularly entered in a book to be kept for that purpose; and all the keys of the closet in the Apothecary's shop in which liquors, tinctures, and opium are contained, shall be kept exclusively by the Apothecary, his assistant, and the Physicians.

The Apothecary and Physicians are directed to furnish no phials to any person in any of the wards of the house, other than the nurses or persons having charge of the wards, who shall be held accountable for the same.

The Apothecary, or his assistant, shall always be in attendance in the shop from 8 o'clock A. M., until 6 o'clock P. M., from October to March; and from 7½ o'clock A. M., until 7 o'clock P. M., from March to October, of each day, except Sunday, when the time of service shall cease at 12 o'clock M.

Admission of Visitors.

The Assistant shall be under the control of the Apothecary, in all business relative to the duties of the office.

An order from a Guardian, the Secretary, or Out-Door Agent, shall admit the bearer thereof to any and every part of the institution, excepting the Insane Department, Obstetrical and Venereal Wards (access to the latter named being attained only in conformity with the provisions of the next rule), from which visitors shall be excluded, unless by *special order*, visiting days to be Tuesdays, Thursdays, and Saturdays, reserving to the Resident Physician on duty the right to exclude visitors from such patients as he believes might be injured. The Steward and Door-keeper are required not to allow any one to pass on any day except those set apart, unless specially set forth in the handwriting of the one granting the permit; to be good for the day only for which the same is issued. The Steward is directed to discharge any Runner who may be found conducting visitors to those parts of the house excluded upon the orders of admission.

The Door-keeper is directed to regard no order of admission by whomsoever granted, when found in the hands of persons who have been detected in the attempt to carry spirituous, vinous, or malt liquors, or other prohibited articles, to any of the inmates, or of those who have, for the preceding three months, been inmates of the Venereal Wards. Nor shall he permit any person to visit the Venereal or Obstetrical Wards, other than near relations of the inmates, ministers of the gospel, and members of the medical profession. The visitors to the above-named wards shall not be allowed to hold conversation with any inmates of the ward, other than those named upon their permits.

Medical Library and Pathological Museum.

The Library and Pathological Museum shall be under the superintendence and direction of the Committee on Hospital; and it shall be the duty of the person engaged for the purpose, to see that all the books are catalogued, labelled, and numbered; that the pathological specimens are inventoried and preserved in good order; and that all directions of the Hospital Committee, in relation to the matter, are observed.

All books purchased for the Library shall have reference to medical science; and they, as well as articles required for the preparation and preservation of specimens in the Museum, shall be purchased as the Hospital Committee may direct.

Religious Worship.

No public preaching or exhortation shall be permitted in the wards of the Hospital or Insane Department At the request of a patient, or by permission of a guardian, any clergyman or piously disposed person may administer the consolations of religion, in such a tone of voice as will not disturb the patients in the ward.

Out-door relief was furnished, during 1867, to 85,232 persons.

The report of the Recording Clerk, January 30, 1868, furnishes the following statistics:—

"During the year 5987 patients were treated; 3956 were cured, 1315 were relieved, 640 died, and 591 remained under treatment.

"265 women were confined, giving birth to 269 children; 131 of which were males, and 138 females.

"38 of these confinements were colored women, which is a decrease of 17 as compared with last year; three more than in 1865, and ten more than in 1864.

"The above figures do not include a large number of patients prescribed for in the out-wards, and allowed to remain there to avoid crowding the wards of the hospital, many of which are full to their utmost capacity.

"During the year 85 foundlings were admitted, which is nearly two and a half times the number admitted in 1864, six more than in 1865, and twenty-one more than in 1866. The mortality was 63½ per cent. as compared with 93 per cent. last year, 78½ per cent. in 1865, and 68½ per cent. in 1864.

"The deaths in the Hospital were 74 less than last year, giving a mortality of less than 10.7 per cent. of the patients admitted. Two per cent. of which mortality is due alone to deaths from phthisis and of foundlings, which, if excluded from our list, leaves but 8 7 per cent. as the mortality of the Hospital. This includes an epidemic of cerebro-spinal meningitis (generally known as spotted fever), which prevailed during the first quarter of the year.

"The Hospital showed no signs of epidemic disease after the first quarter."

The report of the Physician and Superintendent furnishes the following annual statement of the workings of the Insane Department of the Philadelphia Hospital, for the year ending December 31, 1867.

"*Admissions.*

	Men.	Women.	Total.
Number of patients in Hospital, Jan. 1, 1867	206	359	565
" " admitted during the year	168	202	370
Whole number under treatment during 1867	374	561	935
Daily average under treatment	203.3	375	578.3
Largest number at one time during the year			624
Smallest number at one time during the year			553

Discharges.

	Men.	Women.	Total.
Discharged cured	56	42	98
" improved	41	48	89
" unimproved	23	24	47
Died	30	38	68
Not insane	6	4	10
Whole number discharged	156	156	312
Remaining December 31, 1867 . . .	218	405	623

"The small proportion of cures is due to the fact that most of those received were chronic cases from other institutions, or who had been here in former years. Those remaining from the last year were, with few exceptions, chronic cases. It is necessary to state that there is no selection of cases in this department, but all are taken who present themselves."

Officers of the Board.

The Municipal Hospital,

HART LANE, NEAR TWENTY-FIRST STREET,

Was formally accepted by the Board of Health of the City of Philadelphia, April 27, 1855. The following extract from a report of a speech made on that occasion by the late Dr. Wilson Jewell, will be interesting as an historical sketch of the previous steps taken by the authorities in regard to hospital accommodations for persons laboring under infectious diseases.

"Up to the year 1743 there had not been a single hospital organized in our city. In 1726 the smallpox broke out in the city, and a house located near where Ninth and South streets intersect, was used as a pest-house. The victims of this epidemic in those days were taken to farm-houses. In the year 1743 the merchants, as a safeguard, took the subject of making provision for the sick into consideration, because the smallpox was increasing as immigrants came upon our shores from Germany. The Colonial Assembly became alarmed, and they built a pest-house on State Island, at a later period called Fisher's Island, near the mouth of the Schuylkill. This remained in use for sick emigrants until 1800, when the Lazaretto, on Little Tinicum Island, in Delaware County, was built. The calamitous necessity, in 1793, so alarmed the inhabitants, that it was then considered absolutely necessary to establish some measures to insure the public safety of this city. The Guardians of the Poor had already refused to receive smallpox or fever patients into the Almshouse, then located on Spruce Street, between Tenth and Eleventh. The Pennsylvania Hospital was closed at that time. The Guardians of the Poor took the old circus, on Chestnut and Sixth streets, but the residents of the vicinity threatened to burn the place down unless the sick were removed. Application was then made to the magistracy of the city, and finally a place was selected on Bush Hill.

"The Board of Health was organized in 1794, and purchased the

Fish Tavern, on the west side of the bridge, now occupied by the Pennsylvania Railroad Company. This was used for a time for hospital purposes. The first Hospital established by the City was in 1796 or '97. This was the Wigwam Hotel, at the foot of Race Street, on the Schuylkill. It was then a somewhat celebrated tavern, to which gentlemen resorted to eat perch, as they now do at the Falls, where catfish and coffee are popular. This Hospital retained the name of the Wigwam Hotel for several years; the sign that used to swing there is in Germantown, but being defaced by the ravages of time, has been painted over. In 1805 the citizens in the vicinity of the Wigwam Hospital entered complaints against the institution. It was finally removed to other ground, on the Wissahickon road, near where the Ridge Road and Wallace Street now intersect each other. This place was occupied for two seasons only, when the citizens again rebelled, and demanded its removal. For a time the city was again without a Hospital. The people settled down in the opinion that if the epidemic should again visit the city, buildings should be put up at respectful distances, to meet the emergency.

"In the year 1840, a Hospital for infectious diseases was erected on Bush Hill, where it remained until 1855, when it was removed. Since that time Philadelphia has been without a City Hospital. This was a subject much to be regretted. The Board of Health opened the Lazaretto Hospital, and patients had to be removed twelve miles from the city; and no one can form any idea of the amount of suffering the poor creatures had to undergo. Now we have a Hospital, with all the conveniences needed for the present era."

The Hospital is, of course, maintained by appropriations made by the City Councils. It is under the management of a resident physician, appointed by the Board of Health. The diseases treated are smallpox, varioloid, yellow fever, ship fever, typhus fever, scarlet fever, and cholera.

Upon receiving the certificate of a physician that a patient has one of the above enumerated diseases, and that his circumstances are not such as to admit of his being properly treated, except in a hospital, the Chief Clerk, or any member of the Board, issues an order of admission; whereupon the hospital ambulance is sent to remove the patient. If he is able to pay, one dollar per day will be charged; if he is poor, no charge will be made.

There is no compulsion in regard to entrance into the Hospital.

From the Report of the Resident Physician for 1867, published in the Annual Report of the Board of Health, it seems that the operations of this Hospital during the year were as follows:—

Total number of patients admitted, 53.

Males	38	
Females	15	
		— 53
White	44	
Black	9	
		— 53

The diseases were as follows:—

Variola	18	
Varioloid	27	
Rubeola	5	
Varicella	1	
Cholera	1	
No disease	1	
		— 53
Discharged	46	
Died	7	
Remaining	0	
		— 53

Resident Physician: J. H. Taylor, M D.

Clifton Hall.

CLIFTON, DELAWARE COUNTY, PA. OPENED IN 1860.

This Institution, although not within the city limits, is so near them as to be properly mentioned in connection with the objects of this work. It is a private Hospital for mental diseases; and derives its support from the payments made for board and medical care of patients.

No patient is received for a less period than three months. A certificate of insanity, signed by one or more physicians, is invariably required.

Persons suffering from the abuse of alcohol or opium are also received for treatment.

All arrangements for the admission of patients must be made with the Superintendent.

Address ROBERT A. GIVEN, M. D,
Clifton Hall, Delaware Co., Pa.

SECTION IV.

DISPENSARIES.

The Philadelphia Dispensary.

127 SOUTH FIFTH STREET.

This institution was founded in 1786. It is supported by private contributions, and by income from investments. During the year ending December 2, 1867, 15,702 cases were reported as attended by its officers, 32,468 prescriptions having been compounded.

The cost of this relief was in great part a burden taken from the pockets of the taxpayers of the city; although some persons no doubt applied for it who would never have consented to receive aid from the Guardians of the Poor.

Any one who pays annually into the hands of the Treasurer one guinea or five dollars, is entitled to the privileges of a Contributor; and the payment of ten guineas or fifty dollars at one time, constitutes a person a life Contributor.

A Board, consisting of twelve Managers, is annually elected on the first Monday in January, by a majority

of the Contributors; and the Managers annually elect a Treasurer of the Dispensary, six Attending and two Obstetric Physicians, four Consulting Physicians and Surgeons, one Resident and one Assistant Physician, and an Apothecary.

The six Attending or District Physicians attend promptly to all cases directed to their care by the Institution, and if any cases so directed shall prove unsuitable, they so report them as soon as practicable to the Dispensary, together with the disqualifying clause. They are not to hold appointment in any kindred institution, from the Guardians of the Poor, or in any other Dispensary of this city. Neither of them is to prescribe for a patient out of his district, unless by special license from the Board; nor on any occasion permit his office to be made subservient to the use of any school, cliquê, institution, or person whatever.

Any Physician having served the Dispensary in a faithful manner, and to the satisfaction of the Managers, for a term of three consecutive years, shall, by a vote of a majority of the Managers present at any meeting of the Board, after the termination of the said term of three consecutive years, receive an honorariun, to the value of two hundred dollars, as a testimony of the approbation of the Board.

The Obstetric Physicians keep a correct record of all Clinical and Lying-in cases, with name, age, residence, color, nativity, disease, treatment, and result.

They appoint an Assistant Physician quarterly, subject to the approval of the Secretary, whose duty is to assist at the clinics, and in cases of slightly difficult

labor; never performing the operations of turning, delivery by the forceps, or craniotomy, save in the presence of a Principal. The prescriptions of the Assistant, marked O. D. P. D., shall be put up at the Dispensary.

In extreme cases, or in those of unusual interest, on application of the attending accoucheur, the Secretary of the Managers may grant nursing aid for a limited period.

The benefits of the Dispensary are bestowed upon all applicants residing between the Delaware and the Schuylkill, and between the north side of South Street and the south side of Vine Street; the only exceptions being those suffering from delirium tremens or from venereal disease, and mere paupers. Recent accidents occurring in the neighborhood are always treated on application.

The portion of city above mentioned is divided into six districts, each of which is assigned to one of the Attending Physicians.

From the Resident Physician's Report the following statistics are derived for the year ending December 2, 1867:—

Whole number of cases reported . .	15,702
Prescriptions compounded. . . .	32,468

By the District Physicians 2211 patients were attended; 1834 of whom recovered or were relieved; 169 removed from the district, were discharged or were lost sight of; 109 died; and 99 continue under care.

The Accoucheurs report 149 cases of labor, and 163 clinical cases. Twelve of the latter are still attended.

All the inmates of the "Home for Aged and Infirm Colored Persons," fifteen in number, are reported by Dr. Collins to have received medical aid.

In the House 8972 patients were prescribed for. 90 of these are still attending; nearly all the others recovered or were relieved. 4192 teeth were extracted.

Of the House and District cases 8.12 per cent. were colored; 64.59 per cent. female; 31.47 per cent. married; 13.84 per cent. widows; 2.15 per cent. widowers; 40.64 per cent. born in America; 52.36 per cent. born in Ireland; 7.21 per cent. born in other countries; 16.4 per cent. were seven years of age or under; 29.21 per cent. between seven and twenty-five years; and 54.39 per cent. over twenty-five years.

The following is a list of the Managers and Officers of the Dispensary:—

Managers Elected First Month 7, 1867.

William F. Griffitts, *President*,	Henry J. Morton,
John Farnum,	George B. Wood, M.D.,
D. Clark Wharton,	T. Wistar Brown,
John M. Whitall,	John C. Browne,
Charles Ellis,	Joseph P. Smith,
Thomas Wistar, *Secretary*,	William Hacker.

Officers Elected First Month 6, 1868.

Treasurer: William L. Edwards, No. 8 North Front Street.

Attending Physicians and Surgeons:—

Dr. Richard A. Cleemann,	Dr. George B. Dunmire,
Dr. William Lehman Wells,	Dr. Horace Williams,
Dr. Richard Thomas,	Dr. John S. Newton,

Obstetric Physicians:—

Dr. Edward A. Spooner,	Dr. J. Henry Sherk.

Consulting Physicians and Surgeons:—

Dr. Hugh L. Hodge, Dr. George W. Norris,
Dr. William W. Gerhard, Dr. S. Littell.

Resident Physician: Edward Maris, M. D.

Assistant Physician: Barnett G. Guthrie, M. D.

Apothecary: George V. Brooks.

Obstetric Department of the Philadelphia Dispensary.

15 NORTH THIRTEENTH STREET.

During the year ending November 30, 1867, of one hundred and forty-nine cases of labor, all the mothers recovered, whilst three of the children were still-born. At the Clinical Rooms one hundred and sixty-three females were prescribed for, all of whom were cured, relieved, or ceased to attend, excepting twelve remaining at present under treatment.

In connection with the above Institution, Clinics are conducted every Wednesday and Saturday, from 10 to 11 o'clock A. M.

Students of medicine and recent graduates are afforded opportunities of becoming familiar with the diagnosis and treatment of the most varied and important diseases peculiar to women.

Gentlemen are admitted to the Clinic for a term of three months, with the privilege of attending obstetric cases during six months.

Classes formed in October and April.

Tickets, $15.

Apply at the Institution on Clinic days, or to E. A. Spooner, M. D., 311 South Fifteenth Street.

The Philadelphia Lying-in Charity and Nurse Society.

126 North 11th Street. Founded in 1828.

This institution is supported wholly by private subscriptions. Its objects are the training of nurses, and the assistance of poor and deserving women in childbed. Medical aid is also afforded to women suffering from the diseases peculiar to their sex.

Women in good health, between the ages of twenty-two and forty-four years, capable of reading and writing readily, desirous of devoting themselves permanently to nursing, may, if they wish to begin this service under the training and patronage of the Lying-in Charity and Nurse Society, apply, with testimonials of intelligence and moral character, to the Matron of the Nurses Home, 126 North Eleventh Street.

Persons needing the benefits of the Lying-in Charity and Nurse Society, may apply to the Lady Visitors in whose district they live, or directly at the Institution, 126 North Eleventh Street, as above, at eight o'clock, Thursday morning, a reasonable time before expected confinement.

Applicants for treatment at the Clinic for Diseases of Women should apply on Wednesday or Saturday mornings at eight o'clock.

Citizens desirous of employing those nurses who have completed their term of service in the Institution, are informed that the Matron will always assist them as far as possible in procuring one, provided sufficiently

early application be made to her, at the Home, No. 126 North Eleventh Street.

Two courses of practical lectures to students are given in this Institution every year. The summer course, by Dr. J. G. Allen, begins about the 1st of April; the winter course, by Dr. Albert H. Smith, about the middle of October.

Cases are attended at their own homes by the students, under the supervision of the lecturers.

During the year ending Nov. 1867, 498 cases received medical aid from the Institution. Of these, 320 were confinements, all of which resulted favorably. The other 178 were patients at the bi-weekly clinic for diseases of females. "A large number of these have been cured; some with malignant and incurable diseases, and others, who were unable to attend regularly, have been only partially relieved." (*Report*, p. 7.)

Fifty pupil physicians attended the lectures, etc.

Three nurses were admitted as qualified. Twenty-two nurses are resident at the Home, and eleven others are registered there. Of 361 applications for nurses by citizens, 205 have been satisfactorily answered.

Officers for 1867-8.

Matron: Bernice C. Baner.
Assistant Matron: Ann Baner.

The Northern Dispensary of Philadelphia, for the Medical Relief of the Poor,

603 Spring Garden Street,

Was chartered in 1817. Its support is derived from annual contributions, and the interest of a fund, being the accumulation of legacies bequeathed from time to time by benevolent persons.

The Dispensary is open daily: during the week, from 8½ A. M. until 7 P. M. (prescribing hours from 10 A. M. till 5 P. M.); on Sundays, until 9½ A. M., and from 5 to 7 P. M.

The following are extracts from the rules of the institution:—

Any person disposed to become a contributor shall have his or her name submitted to the Board of Managers, and on a majority of those present agreeing thereto, and the payment of three dollars per annum, shall be a member, and shall be entitled to the privilege of having two patients at a time under the care of the Dispensary; those who pay annually six dollars shall have four, and so on in the same proportion; and those who pay twenty dollars in one entire sum shall be entitled during life to the privilege of having two patients attended at one time by the physicians of the Dispensary.

All recommendations from contributors must be taken to the physician in whose district the patient resides.

No persons shall be deemed objects of this charity

but such as are necessitous, and not proper objects of the Guardians of the Poor.

Patients, when cured, must take a regular discharge from the physician to the contributor who gave them the recommendation, or they must not expect to be again received.

Persons who go to the Dispensary for advice, need not obtain a recommendation; but are required to report themselves until discharged, or they cannot again be prescribed for.

Lying-in Department.

For the purpose of extending the benefits of the institution, the managers have established a Lying-in Department, for attending respectable poor married women at their own homes, subject to the following regulations:—

1. All recommendations on the Lying-in Department must be signed by one of the Ladies' Committee on said department, and no physician shall attend on a parturient patient unless so recommended.

2. Instruments shall not be used to accomplish delivery without the advice of a consulting physician, except in extreme cases where immediate action may be absolutely necessary; nor shall any capital surgical operation be performed by any of the physicians of the Dispensary without the same be advised by one or more of the consulting surgeons of the institution.

3. Married women of respectable character only, and such as require no aid when in health, shall receive the benefit of this department.

4. All contributions, donations, and legacies expressly designed for the Lying-in Department shall be strictly appropriated to the support of the same.*

During the year ending December 1, 1867, the whole number under the care of the institution amounted to 10,291 patients, viz:—

Remaining under treatment from last year .	23
Admitted since	10,268
Total	10,291

Of these, 9450 were treated at the Dispensary Hall, and 841 at their homes, by the attending physicians.

The whole number cured, relieved, and unknown	10,195
Remaining under treatment	45
Dead	51
Total	10,291

The prescriptions of the year number 18,115, and the operations upon the teeth 2373.

In the Lying-in Department there were 34 cases recommended, of whom 22 were attended, and all recovered except one.

The following is a list of the officers of the institution:—

President,	George W. Tryon.
Vice-President,	John M. Ogden.
Secretary,	John Kessler, Jr.
Treasurer,	Robert Lindsay.

Resident Physician and Apothecary: Charles Carter, M. D.

* Contributions, donations, &c. will be thankfully received at the Dispensary, No. 603 Spring Garden Street.

Attending Physicians and Surgeons:—

Dr. Theodore Roth,
" Lemuel J. Deal,
" A. S. Gerhard,
" F. W. Lewis,
W. H. Wallace,
James Collins,
N. Hatfield,
J. H. Wilson.

Consulting Physicians:—

Dr. Samuel Jackson,
" Joseph R. Bryan,
" Owen Osler,
Dr. M. M. Levis,
" William Mayburry,
" Levi Curtis,
Dr. J. Solis Cohen.

Consulting Surgeons:—

Dr. David Gilbert,
" R. J. Levis,
Dr. Henry H. Smith,
" J. M. Boisnot,
Dr. Edward Livezey.

Consulting Physicians to the Lying-in Department:—

Dr. Hugh L. Hodge,
" Nathan L. Hatfield,
Dr. John Rhein,
" J. Henry Smaltz,
Dr. Ellerslie Wallace.

Physicians' Districts.

1. Dr. Deal, 1103 Vine Street.—From Vine Street to Willow, and from Sixth Street to the Delaware.

2. Dr. Wallace, 1111 Callowhill Street.—From Vine to Spring Garden Street, and from Sixth to Broad Street.

3. Dr. Gerhard, No. 817 North Sixteenth Street.—From Vine to Poplar Street, and from Broad to Nineteenth Street.

4. Dr. Roth, No. 251 N. Fifth Street.—From Willow to Green, and from Sixth Street to the Delaware.

5. Dr. Collins, Marshall and Green Streets.—From Spring Garden Street to south side of Poplar Street, and from Sixth to Broad Street.

6. Dr. Lewis, 857 N. Sixteenth Street.—From Green to Brown Street, and from the Delaware to Sixth Street.

7. Dr. B. B. Wilson, 842 Franklin Street.—From Brown Street to Girard Avenue and Germantown Road, and from the Delaware to Sixth Street.

8. Dr. Hatfield, Franklin and Buttonwood Streets.—From Poplar to Master Street, and from Sixth to Nineteenth Street.

9. Dr. Wilson, 855 North Eleventh Street.—From Girard Avenue and Germantown Road to Columbia Avenue, and from Sixth Street to the Delaware.

The Medical Board of the Northern Dispensary.

The Resident and Attending Physicians attached to the Northern Dispensary have associated themselves under the above title, in order to foster feelings of professional good-will and cordiality towards each other, and to promote the best interests of the Dispensary, and also for the free exchange of sentiment on all subjects of medical interest.

Officers of the Board for 1868.

President, LEMUEL J. DEAL, M. D.
Vice-President, N. HATFIELD, M. D.
Secretary, W. H. WALLACE, M. D.

Philadelphia Society for the Employment and Instruction of the Poor.

CATHARINE STREET, ABOVE SEVENTH. FOUNDED 1853.

The Dispensary connected with this institution, which is perhaps more commonly known as the "Moyamensing House of Industry," is very active. It is intended especially for the relief of the worthy poor living on the south side of South Street, and in the district below this line.

Lodging is furnished to such as apply for it. It is part of the plan to receive persons discharged from

the Moyamensing Prison, thus allowing them a little time to examine and decide upon the course of their future lives before encountering the suspicion and sometimes the unnecessarily harsh treatment of the world.

All lodgers are at liberty to spend three days at the House; this limit has been judiciously established to prevent the charity of the institution from being abused by healthy persons who should rely upon themselves for support.

A daily clinic is held by the physicians in rotation, at 12½ o'clock. Patients are also attended at their own houses, on application at the Dispensary, and medicines furnished free of charge.

The Obstetric Department was instituted in 1866, for the benefit of the deserving poor in the lower part of the city. A clinic for the diseases of women is held at the Dispensary on Tuesdays and Fridays, from eleven to twelve o'clock.

The number of patients treated in the year ending May 31, 1868, was 5244, against 886 in 1853, its first year of organization. Eighty-six women were safely confined under its auspices, and 248 cases of diseases peculiar to females were treated; all relieved, and the larger part cured.

Officers of the Society.

Elected April 1, 1867.

President,	DAVID SCULL.
Vice-Presidents,	JOHN KELLEY,
	CHARLES J. ROWLAND.
Recording Secretary,	COLEMAN L. NICHOLSON.
Corresponding Secretary,	CHARLES P. PEROT.
Treasurer,	WISTAR MORRIS.

Officers elected by the Board.

Matron: Martha W. Hammond.

Officers of the Dispensary.

Physicians: Drs. N. Hickman, James Tyson, John A. Hunter, and Horace Williams.

Obstetric Physician: Dr. F. H. Getchell.

Southern Dispensary for the Medical Relief of the Poor.

318 Shippen Street. Founded March 24, 1817.

Supported by donations, private subscriptions, and a fund.

Relief obtained by application to the Resident Physician at the Dispensary, 318 Shippen Street, or either Manager.

Managers.

James Carstairs,	John Castner,
John Thomson,	John W. Hicks,
Peter Williamson,	Arthur Hughes,
Henry Wharton,	Wm. Loughlin,
Robert Clark,	Samuel F. Flood,
James N. Stone,	Joseph R. Lyndall.

Resident Physician: William Notson, M. D.

The Howard Hospital and Infirmary for Incurables.

Nos. 1518 and 1520 Lombard Street. Founded May 1, 1853.

This Institution is supported altogether by voluntary contributions. It is under the control of a Board of twenty-four Managers, elected annually by the

contributors. As the name indicates, the original plan calls for a Hospital, a Home for Incurables, and a Dispensary for gratuitously supplying the deserving poor with medical advice and medicines. The last mentioned is the only part now in efficient operation. A corps of ten physicians and surgeons, with a resident physician, are in attendance at stated hours.

The distinctive feature of the charity is, that each physician confines his attention to a specific class of affections. So far as known, this was the first successful effort of the kind in the country.

The physicians are directed not to interfere with the operations of the Guardians of the Poor, but to limit their efforts, as much as possible, to the wants of the "needy and industrious poor." None are refused assistance, but the class mentioned is to be especially encouraged.

The Hospital and Infirmary for Incurables was begun and successfully carried on during the early years of the establishment of the Institution, but the want of suitable buildings necessary for properly embracing the idea of its projectors, led the Board of Managers to devote the entire resources of the charity to the Dispensary Department. Contributions are now solicited for the purchase of necessary ground and the erection of a Hospital building.

Application should be made in person at the day and hour specified below. Medical men, students of medicine, or any other persons interested in public charities, are always welcome to see the workings of the Institution.

Mondays and Thursdays:

1 o'clock P. M.—Diseases of the Eye and Ear.
5 o'clock P. M.—Diseases of the Chest.

Tuesdays and Fridays:

12 o'clock M.—Fevers, etc.
3½ o'clock P. M.—Diseases of Females.
5 o'clock P. M.—Diseases of the Digestive Organs.

Wednesdays and Saturdays:

12 o'clock M.—Surgery.
1 o'clock P. M.—Diseases of the skin.
5 o'clock P. M.—Diseases of the Brain and Nervous System.

Infants and small children prescribed for every morning at 9 o'clock; children vaccinated and teeth extracted at the same hour.

The number of new patients registered at the Hospital during the year ending March 1, 1868, was 7430. Of these patients 3052 were males, and 4378 females; 3341 were adults, and 4089 minors. Their place of nativity was as follows: United States, 4302; Ireland, 3022; England, 52; Scotland, 33; Germany, 16; France, 3; Portugal, 1; Wales, 1.

These patients were all treated and received medical advice at the Dispensary Department of the Hospital. Their medicines were also provided gratuitously, the prescriptions of the physicians being filled in the apothecary shop. The number of prescriptions thus compounded during the year was 17,336; and the number of visits made by the patients for the purposes of advice and treatment was 22,343, or an average of 1862 per month. In July the largest number of new

patients was received, being 723, and in May the number of visits of patients was 2277.

Officers of the Institution, 1868-69.

SECTION V.

CHARITABLE INSTITUTIONS.

The Philadelphia Orphan Society.

EIGHTEENTH AND RACE STREET.

Founded in 1815.

The Asylum afforded by this Society is supported by annual subscriptions, by donations, and by interest of moneys invested. It accommodates about 80 children, who "must be the orphans of married parents, the boys under six, and the girls under eight years of age. They will be kept in the Asylum until they are twelve years old, when they must be indentured to responsible guardians. It is a fact worthy of record, that during the fifty-two years of the existence of this charity, not one child within its limits has ever been refused admission into the Asylum, while many others have been received by a special vote of the board. No child can be admitted with any physical defect that may deprive it of the power of earning a living, and all must undergo a medical examination by the attending physician of the Society." (*Annual Report for* 1867.)

Officers and Managers for the Year 1867-68.

First Directress, Mrs. Stephen Colwell.
Second Directress, Miss Elizabeth Fisher.
Treasurer, Mrs. James Bayard.
Secretary, Miss Maria Tilghman.

Catholic Home for Destitute Orphan Girls.

1720 Race Street.

Under the charge of three Sisters of St. Joseph. Number of orphans, 63.

Superior: Sister Seraphine.

The Association for the Care of Colored Orphans.

Forty-Fifth Street and Haverford Road:

Founded in 1822.

The object of this Institution is set forth in its name. It can accommodate about 80 inmates; about 70 are now under its care. Children are admitted from 18 months to 8 years of age; they are indentured, chiefly in the country, until 18 or 21 years of age.

Secretary: Elizabeth Rhoads, 702 Race St.

Foster Home Association.

24th and Poplar Streets. Chartered 1839.

The object of this Institution is to provide "for the children of virtuous and industrious individuals, who by the death of one parent, or adverse circumstances, are deprived of support under the parental roof, a Home, where such children shall be received at a moderate compensation, provided with wholesome nourishment, comfortably clad, attended in sickness, taught the rudiments of an English education, have

their moral characters carefully formed and habits of regularity and industry established, which will qualify them to be useful members of society."

Any citizen of this commonwealth may become a member of the Association by the annual payment of two dollars or upwards.

At the annual meeting, on the first Tuesday in January, eighteen ladies are chosen to act as Managers.

The children admitted into the "Foster Home," must be half orphans, not under three years of age. Boys are not received over six years of age, or girls over nine. The time for removal is left to the decision of the Board of Managers.

Applications for admission may be made to any of the Managers.

The "Home" has now 75 children under its care, with applications so numerous that the Managers hope before long to be able to increase the number; there is sufficient room in the house for more.

The Union School and Children's Home.

TWELFTH AND FITZWATER STREETS.

Incorporated March, 1851.

The object of this Institution, the corporate name of which is "The Trustees of the Union School," &c., is "to afford a home, food, clothing, and schooling for destitute orphan children, and for such poor children as may be neglected or deserted by their parents." Twenty-five dollars paid at one time constitutes a life membership; annual contributors are members of the corporation.

The Committee on Admission and Dismission meets at the Home every Friday afternoon at 4 o'clock.

The inmates are generally apprenticed on reaching the age of thirteen years.

The Northern Home for Friendless Children.

BROWN ST. FROM 22D to 23D ST., PHILADELPHIA.

Incorporated by act of Assembly, January 26, 1854. It is not sectarian. Supported mainly by private contributions. Auxiliary appropriations are made by the city and State.

Its object is to educate and provide for friendless and destitute children of the commonwealth, from three to twelve years of age.

They are received, upon commitment by judges of the Supreme Court of Pennsylvania; by judges of the District Courts and Courts of Common Pleas of Philadelphia and Alleghany Counties; and by the President Judges of all the other County courts in the State. These commitments are based upon affidavits of the facts, taken and reduced to writing in presence of the child or children to be so committed. For Philadelphia cases, application should be made to MacGregor J. Mitcheson, Esq., solicitor and counsel, 528 Walnut Street.

They may also be released by a parent, guardian, or next friend, appearing—with the child or children—before the appropriate committees at the "Home" on any Tuesday at 3½ P. M.

None but healthy children can be accepted. No fees are charged, and no pay received for the admission and care of children.

Friendless orphanage; neglect, abandonment, or inability to support those having one or both parents, are the usual grounds of admission.

When received, they are fed, clothed, and educated

at the "Home," until they can be indentured to learn some useful trade or occupation; the boys until 21, the girls until 18 years of age: when their master, who has supported them meanwhile, must supply them with at least two suits of clothes, one whereof shall be new, and $50. Farming and housewifery are the branches of industry generally preferred for the boys and girls respectively.

Connected with the Northern Home for Friendless Children, and under the same management, is a *Home for the Orphans of United States Soldiers and Sailors*, from Pennsylvania, who died during, or from wounds or disease contracted during, the insurrection of 1861–65. For admission to this department of the "Home," or to any of the Homes or Schools of the State, application must be made to the Committee for the ward of the city in which the applicant resides, a list of which is hereunto annexed. Children are admitted from 4 to 16 years of age.

Chairman: M. J. Mitcheson, 528 Walnut St. and 1109 Coates Street.

Note.—All applications for admission to these schools, when correctly filled up, the statement of facts sworn to, and the certificate of the member for the Section filled and signed, are to be sent to MacGregor J. Mitcheson, Esq., No. 528 Walnut Street; or, if Roman Catholics, to Bishop Wood, Logan Square, as requested in the Letter of Instructions of 22d November, 1864.

St. Vincent's Home.

Eighteenth and Wood Streets. Founded 1855.

This institution is for the reception of destitute children. It is supported by private subscriptions, and by an annual appropriation from the city of $1000. It is under the care of the Sisters of Charity, with the Roman Catholic Bishop of the Diocese (Rt. Rev. James F. Wood) as President *ex-officio.*

It accommodates about 90 children, and 23 at nurse—113 in all.

Applications for the admission of children should be made to the Sister in charge, who never refuses while there is room in the house.

Sister Servant (in charge): Sister Mary Joseph.
Physician: Dr. Walter F. Atlee.

The Church Home for Children.

N. E. Corner Twenty-Second and Pine Sts. Chartered 1861.

The object of this institution is to provide for the maintenance and education of orphan and destitute white children, either gratuitously, or at such moderate charge as the circumstances of their parents or guardians may render expedient. It is under the control of a Board of Managers of twenty ladies, and a Board of Council of not more than twelve gentlemen, elected annually.

Any person who annually pays a sum of not less than two dollars, on or after the first day of February, is a member of this society, and entitled to a vote at the election for Managers and Board of Council. The payment of the sum of fifty dollars at one time constitutes a life member.

[*Extracts from the Constitution.*]

"Article XII.—Girls after attaining sixteen years of age, and boys after attaining twelve years of age, who become inmates of the Home, by virtue of the provisions of the act of Assembly approved April 19, 1861, shall be indentured to or provided with a suitable trade or occupation, or be returned to their parents or guardians, at the discretion of the Committee of Admission and Dismission. Those received from parents and guardians shall be wholly surrendered in proper form to the Managers' care and custody. Offers for adopting, indenturing, providing for, or dismissing children under age, shall be submitted to the Board for their consideration and action."

"Article XV.—No child under the age of four years shall be received, nor any male child over the age of six years, nor any female child over the age of nine years, except by unanimous consent of all the Managers present at the next meeting after appli-

cation for admission. All boys shall be required to remain until attaining twelve years of age, and girls to sixteen years, unless dismissed in accordance with Article XII. Under peculiar circumstances, children of all ages may be temporarily sheltered."

[*From the Annual Report for* 1867, *read Feb.* 4, 1868.]

"There are now fifty-eight children in the Home, forty-three of whom are girls, of which number seventeen are soldiers' orphans. There were twelve children admitted during the year, six boys and six girls; two dismissed, one boy returned to his mother a week after admission, and a girl, having reached the age of sixteen, was placed in a good home by the Managers."

The Committee on Admission and Dismission of Inmates meets at the Home on the last Thursday of every month, at 11 A. M.

St. Ann's Widows' Asylum.

Second Street below Christian.

Under the charge of five Sisters of St. Joseph. Number of inmates, 36.

Superior: Sister Borgia.

Magdalen Society.

FOUNDED IN 1801.

The object of this Society is to reclaim fallen women and to fit them for useful positions in life.

President, MORDECAI L. DAWSON, N. E. cor. 7th and Walnut Sts.
Secretary, T. CHARLTON HENRY.
Physicians: Drs. James J. Levick and George Pepper.

Howard Institution.

1612 POPLAR STREET. FOUNDED 1854.

This is an institution for the reformation of discharged female prisoners; it is supported by voluntary contributions, and is under the charge of an association of female Friends.

Directress, MARTHA G. RICHARDSON, 124 N. 10th St.
Secretary, JANE S. BISPHAM, Moorestown, N. J.

Physicians: Drs. A. H. Fish and T. G. Morton.

House of the Good Shepherd.

TWENTY-SECOND AND WALNUT STREETS.

A retreat for unfortunate females who wish to reform. It is conducted by the Religious of the Good Shepherd. Number of patients, 82. Number of orphans, 30.

Superior: Mother MARIE DES ANGES.

Soldiers' Home.

SIXTEENTH AND FILBERT STREETS.

This institution is intended to provide a home, a school, and a working-place for "such persons as, while in the service of the United States, have been disabled through wounds or sickness, and are thereby unable to perform the ordinary avocations of life." A hospital department is also embraced in the plan.

It is supported partly by private contributions, partly by aid from the State, and is under the control of a Board of Managers, in conjunction with a Committee of Lady Visitors. Delegates from the Executive Committee of the Board of Managers visit the Home every evening, from eight to ten o'clock; to them are referred applications for admission and discharge.

Nearly 200 inmates are constantly in the house.

To illustrate the system of which the Home forms a part, we may introduce the following quotation from the daily *Press* (Philadelphia), June 5, 1868:—

"Washington, June 4.

"The quarterly meeting of the Board of Managers of the National Asylum for Disabled Volunteers was held at the office of the Surgeon-General to-day, Major-General B. F. Butler in the chair. There were present Major-General Schofield, Secretary of War; Governor Smythe, of New Hampshire; Major-General J. W. Mar-

tindale, of New York; Judge H. L. Bond, of Maryland; Lewis B. Gunckle, of Ohio; General John S. Cavender, of Missouri; and Dr. E. B. Walcott, of Wisconsin. Reports from the several asylums showed them to be in a most flourishing condition, 1720 disabled soldiers having been cared for by the Board during the past quarter, as follows:—

At the Central Asylum, Dayton, Ohio	857
" Eastern Branch, Augusta, Me.	100
" Northwestern Branch, Milwaukee	174
At Philadelphia	219
At Newark, N. J.	160
At Baltimore, Rochester, and out-door relief	200

As showing how these men are disabled, we find by the reports from the Central Asylum that of the men there admitted 170 have but one leg, 80 have each but one arm, 3 have lost both legs, and 3 have lost each an arm and a leg; 187 are disabled by other gunshot wounds, 85 are in the second and third stages of consumption, 16 are insane, 25 blind, and 153 under hospital treatment. The reports show a decided improvement in the morals and general behavior of the men, and the good work being accomplished by the schools, libraries, and reading-rooms recently established; and temperance and other societies for mental and moral improvement are organized among the inmates. Governor Smythe reported that the committee appointed for that purpose had made satisfactory arrangements with the managers of the Philadelphia Soldiers' Home, by which that institution was made a temporary branch of the National Asylum. Plans for additional buildings at Augusta, Dayton, and Milwaukee were adopted, and appropriations made for their construction during the summer. It is the intention of the Board to provide accommodations at these three asylums, before winter, for 2000 men. An appropriation was also made for establishing a printing-office at the Central Asylum, to print the circulars, orders, blanks, etc. of the Board and the several asylums, and also as a means of teaching disabled men the art of type-setting as a means of livelihood on going back to the world."

The Lincoln Institution.

308 South Eleventh Street. Incorporated 1866.

"Its object is to provide a home for the care and training of white boys and youths, and for the orphan sons of white soldiers and sailors of the United States." (*Constitution*, Art. 1.)

It is supported by voluntary contributions, and by the board paid by or for some of the inmates. The State of Pennsylvania pays $125 per annum for each boy sent by the Superintendent of Soldiers' Orphans (office at Harrisburg). Corporators are constituted by annual payments of two dollars or more.

The Institution is under the control of a Board of Managers of thirty ladies, and a Board of Council of not more than thirty gentlemen, elected annually by the society. Six clergymen of the Protestant Episcopal Church, and six physicians, are appointed, to visit the institution in rotation, for two months each year.

A Committee of the Managers attends at the Institution every Tuesday, at 11 o'clock A.M., to admit and dismiss inmates. There were at the date of the last annual report, January 16, 1868, eighty-eight boys in the house, seventeen of whom were out at work, coming home to dinner daily, and receiving their instruction in the evening from a teacher provided particularly for them.

The Union Benevolent Association.

Rooms, N. W. corner of Seventh and Sansom Streets.

Founded in 1831.

This is "an institution for the encouragement of industry, the suppression of pauperism, and the relief of suffering among the worthy poor." Hence, as an adjuvant to the more strictly medical institutions of charity, it may well find notice here. It is supported by the contributions of the benevolent, and its operations are directed to the supplying of the deserving poor with such comforts as carpets, bedding, food, clothes, coal, and the loan of stoves. One hundred and fifty female visitors, and one male, are engaged in seeking out and investigating the cases for which its benefits are claimed.

The following is an abstract of the operations of the Association for the year ending Oct. 4, 1867:—

Number of visits made to the poor		18022
"	families under care	8173
"	sick administered to	1569
"	places in families, including domestics and others	1185
"	deaths of those under care of visitors	53
"	children placed at day and Sunday-school	118
"	" in homes	48

Disbursements.

Cash distributed by visitors from appropriations		$4128 10
" "	by visitors	1513 65
" "	from the office, including wages	1260 00
" "	to 35 sewing-women	4577 65
Cash value of 1903 tons of coal at $5 50 per ton		10466 00
" "	coal and wood collected by visitors	705 00
" "	provisions, including delicacies for sick	1450 00
" "	new and partially-worn garments	1323 00
" "	stuffs, furniture, bedding, &c. &c.	313 00
" "	553 stoves, $2 per year	1150 00

Officers for 1867-8.

The Pennsylvania Institution for the Instruction of the Blind.

RACE STREET FROM 20TH TO 21ST. FOUNDED IN 1833.

This Institution is supported chiefly by annual appropriations from the State; it has also an annual income from invested legacies. It is under the control of a Board of Managers.

Indigent blind persons are admitted and maintained for eight years at the charge of the State; they receive a good practical education, in literature and music, and are also taught trades. Those who leave in good standing, but are indigent, receive an outfit of from $50 to $100, to aid them in getting such books, machinery, or apparatus as they may need. A "Home," accommodating not more than twenty, is connected with the Institution, and intended for such as have no other homes.

According to the Report of the Principal, there were, on December 1, 1867, 183 inmates in the house; 157 of whom were from Pennsylvania, and 21 from New Jersey.

Applications for the admission of patients may be made to the Chairman of the Committee on Admissions, Hon. A. V. Parsons, or to the Principal, who will furnish the necessary papers. Children are not usually admitted under 11 years of age, nor if they have sufficient sight to be taught in the public schools.

Persons able to pay are charged $300 per annum, or a less sum, according to their ability.

Officers of the Institution.

Patron, His Excellency, J. W. GEARY, Governor of the State.

President, FRANKLIN PEALE.

Vice-Presidents, THOMAS S. KIRKBRIDE, M. D.,
JOHN C. CRESSON,
ROBLEY DUNGLISON, M. D.,

The Pennsylvania Institution for the Deaf and Dumb.

N. W. CORNER OF BROAD AND PINE STREETS.

This Institution is supported by the interest of invested legacies and scholarship funds, by private subscriptions, and by the money paid for tuition of pupils. Of these, a large proportion (nearly 80 per cent.) are

maintained by the State of Pennsylvania, a few by the State of New Jersey, and a few by Delaware. Three are on scholarships.

Subscriptions, Donations, and Bequests.

Life subscription	$20 00
Annual subscription	2 00

Received by any member of the Board of Directors.

Donations to the Library, of books, maps, pictures, &c., and to the Cabinet, of apparatus, specimens, curiosities of nature and art, will be received at the Institution.

Scholarships.

A donation or bequest of $4000 will found a scholarship, which shall bear the donor's or such other name as he may designate.

Terms of Admission.—Children are not received under ten years of age. The annual charge is $240, for which sum everything necessary is supplied, including the usual clothing of the Institution, boarding, lodging, washing, tuition, stationery, and medical attendance. When clothing is provided by the friends, only $200 a year is charged.

It is very desirable that the deaf and dumb should be taught to form letters with a pen or pencil, and, if possible, to write the names of common objects, before they are sent to the Institution.

STATE OF PENNSYLVANIA.

Applicants for the bounty of the Commonwealth of Pennsylvania must be between the ages of ten and

twenty years; and, before they can be admitted, satisfactory evidence must be furnished, from respectable persons of their neighborhood, of the pecuniary inability of the parents, and of the good natural intellect of the child, and its freedom from any constitutional malady that might incapacitate it for instruction.

On application to the Principal of the Deaf and Dumb Institution, Philadelphia, by letter or otherwise, a paper with printed questions and blank spaces for answers, will be forwarded. After the paper has been filled out, it must be returned to the Institution. The applicant will soon be informed of the result of the application.

The number of pupils on the State fund is limited; new pupils can only be admitted when vacancies occur. The term allowed is six years.

STATE OF NEW JERSEY.

Applications for the bounty of the State of New Jersey must be made to the Governor, "accompanied by the certificate of any two respectable individuals, attested before a magistrate, to the age, circumstances, and capacity of the deaf mute in whose behalf the application is made." The term allowed is six years.

STATE OF DELAWARE.

Application for the bounty of the State of Delaware must be made to the Associate Judges of the State. The term allowed is six years.

Officers for 1868.

President, George Sharswood, LL. D.
Vice-Presidents, Henry J. Williams,
William M. Meredith,
George G. Leiper, of Delaware.
J. N. Conyngham, of Luzerne.
Secretary, James J. Barclay.
Treasurer, F. Mortimer Lewis.

John Neill, M. D.

Principal: A. B. Hutton, A. M.
Matron: Gertrude A. Kirby.
Steward: David J. Stevenson.

Pennsylvania Training-School for Feeble-Minded Children.

MEDIA, DELAWARE COUNTY, PA. FOUNDED IN 1854.

This institution is supported in part by private contributions, and in part by the board paid for private pupils, as well as for others who are maintained from funds appropriated by the States of Pennsylvania, New Jersey, and Delaware. The city of Philadelphia has also a fund upon which twelve children may be sent from the Children's Asylum of the Almshouse, by the proper committee, to the Training-School. The Pennsylvania Soldiers' Orphan Fund is also used for the support of some pupils here.

It would be beyond the province of this volume to do more than mention this institution. Information may be obtained from the Superintendent, to whom all applications for admission should be addressed.

The following statistics for 1867 are appended to the last annual report of the School:—

Number of inmates December 31, 1866 . . .	158
" " admitted during 1867 . .	38
" " removed " . .	31
On roll, December 31, 1867	165
Of 31 removed there are—	
Deceased	4
Discharged improved	19
" not improved	6
Removed and in remunerative employ . . .	2

The 165 inmates are from States as follows: Massachusetts, 3; Connecticut, 1; New York, 1; New Jersey, 20; Pennsylvania, 122;

Delaware, 5; Maryland, 5; Virginia, 2; Alabama, 2; Mississippi, 1; Louisiana, 1; Missouri, 1; Ohio, 1.

Number on State Fund of	Pennsylvania . .	80
" "	New Jersey . . .	15
" "	Delaware . . .	3
" City Fund, Philadelphia	. . .	11
" Soldiers' Orphan Fund, Pennsylvania	.	2

Consulting Physician, J. J. Rowland, M. D.

The Citizens' Association of Pennsylvania.

Media, Delaware Co., Pa. Chartered April 11, 1866.

This institution, supported by private contributions, and by income from patients who come under its care, is intended for the direct benefit of persons suffering

from the excessive use of alcoholic stimulants and opium. It has also been engaged in collecting statistics of pauperism, vagrancy, and crime. A Sanitarium for its patients has been established at Media, and has been in successful operation since June 18, 1867.

Persons are admitted to the Sanitarium on their own application or that of their friends. If legal measures become necessary, there is a law providing for their commitment after they have been examined by the proper officer of the Association, and pronounced suitable for admission. (This proviso is introduced in order to prevent the sending of improper persons, such as criminals or vagrants.) Application is to be made to the President, Dr. Parrish, who is authorized to arrange as to terms, &c. Patients are generally taken for three months at a time.

Directors.

JOSEPH PARRISH, M. D., *President.*

Treasurer, Provident Life and Trust Company.

Industrial Home for Girls.

616 South Broad Street. Chartered in 1859.

The object of this institution is to afford a home for such poor girls, orphans or half-orphans, over the age of twelve years, as may be brought by their surviving parents, or received under the approval of the Judge of a court of record for the city and county of Philadelphia, or any other President Judge of the courts of this Commonwealth; to detain, maintain, educate, and control such girls until proper persons can be found who may be willing to receive them as apprentices to some useful art, trade, calling, or employment, when, with the assent of any Alderman, or Judge of a court of record of the city or county, they may be indentured until the age of eighteen years.

The Home is supported by voluntary contributions. It is in the hands of a Board of Trustees, with whom are associated twenty ladies as Managers.

During the ten years of the existence of this institution, two hundred and twenty-four girls have been received into its care, more than one hundred and fifty have been placed in families, seventy-eight have done well at service, have served out their time, learned trades, married, or supported themselves respectably, and fifty-two have for various reasons been returned to relatives or friends.

During the year ending January 1, 1868, thirteen new girls were received, eight were placed out, six were given up to friends, one absconded, one was re-

moved to another institution, and one returned from her place to the Home.

The committee to receive applications for the admission of girls into the Home, or from persons wanting girls, meets at the Home every Tuesday afternoon, at four o'clock.

Citizens can visit the institution every day but Saturday and Sunday.

Board of Trustees.

Hon. George M. Stroud, *President.*
Samuel C. Perkins, *Vice-President.*
James T. Shinn, *Secretary.*

Physicians:—
Dr. H. Y. Evans,
Dr. Horace Williams,
Dr. Samuel B. Howell.

Matron: Miss Isabella McGill.

The following institutions may be merely enumerated. Information concerning them may be obtained by application to the officers:—

Jewish Foster Home, 1431 North Fifteenth Street. ——, *President*. A. C. Bournonville, M.D., *Physician*.

Society for the Relief of the Sick and Mutual Assistance. *President*, Alfred T. Jones, 321 Chestnut Street.

Philadelphia Association for the Relief of Disabled Firemen, 34 North Fifth Street. G. K. Tryon, *President*.

Old Man's Home, Thirty-ninth Street and Powelton Avenue.

Home for Aged and Infirm Colored Persons, 340 South Front Street. Dillwyn Parrish, *President*.

Home for Destitute Colored Children, Darby Road and Forty-sixth Street. M. K. Williamson, *President*.

Cherry Street Free Bathing House, Nos. 709 and 711 Cherry Street.

The following beneficial societies of resident foreigners, or persons of foreign descent, may be appropriately noticed here:—

St. Andrew's Society, organized in 1749. *President*, Charles Macalester. *Secretary*, Craig D. Ritchie, 508 Walnut Street.

Society of the Sons of St. George, 154 South Fourth St.; established in 1772. *President*, James Allen. *Secretary*, James R. Webb, Eighth and Walnut Streets.

St. David's Society, 130 South Fifth Street; founded in 1798. *President*, Horatio G. Jones. *Secretary*, W. F. Parry, 1314 North Eleventh Street.

Albion Society, 128 Walnut Street; incorporated in 1855. *President*, F. Fairthorne. *Secretary*, William G. Boulton.

Hibernian Society, 140 Walnut Street. *President*, Robert Patterson. *Secretary*, —— ——.

French Benevolent Society, chartered in 1835. *President*, Eugene Roussel. *Vice-President*, H. A. Pintard. *Treasurer*, M. V. Olry. *Secretary*, H. Tirel, 210 South Eighth Street. *Physicians and Surgeons*, Walter F. Atlee, A. C. Bournonville, A. D. Hall, C. P. La Roche, E. A. Spooner, C. P. Turner, E. H. Dwight, C. Beeken, and W. W. Gerhard.

Swiss Benevolent Society, Fourth and Wood Streets; chartered December, 1865. *President*, R Koradi. *Secretary*, Aug. H. Wirz, 101 South Eighth Street.

SECTION VI.

MISCELLANEOUS MATTERS.

The Board of Health*

Assumed its present organization under an act of Assembly in 1818. Its office is at the southwest corner of Sixth and Sansom Streets, and is open from 9 A. M. to 3 P. M. daily (Sundays excepted). It consists of twelve members, four of whom come in in July of each year, to serve three years; being appointed, one by the Supreme Court, one by the District Court, one by the Court of Common Pleas, and one by the Select and Common Councils in joint convention.

The members of the present Board are:—

President, ELIAB WARD, M. D.
Secretary, CHARLES B. BARRETT.

Jacob B. Coates,
René La Roche, M. D.,
James West,
Thomas Stewardson, M. D.,
James Steel,
James A. McCrea, M. D.,
Geo. Morrison Coates,
Henry Davis,
William Read,
Charles J. Field.

* See also p. 110, for information in regard to the Municipal Hospital.

The Board holds stated meetings on Tuesday of each week, at 12 M., from the 1st of October to the 1st of June; and daily, at the same hour, Sundays excepted, from the 1st of June to the 1st of October.

On the fourth Tuesday in January, annually, they elect twenty-four Vaccine Physicians* and thirteen Collectors of Vaccine Cases, according to "An Ordinance to provide for Gratuitous Vaccination," passed in 1860.

Acting under the Board of Health, but appointed by the Governor of the State, are the following officers:† One port physician, one Lazaretto physician, one health-officer, and one quarantine-master. Such clerks, messengers, and runners as the Board may deem needful, they are authorized to appoint. The port physician is charged with the investigation of all suspected cases of infectious disease in vessels already in port, or in houses in the city. The Lazaretto physician resides at the Lazaretto (about ten miles below the city) from June 1 to October 1, and has charge of all matters relating to quarantine, under the provisions of the General Health Law of 1818.

Midwifery Reports.—By an act of Assembly passed 1819, all persons practising midwifery in the city of Philadelphia are obliged to leave a written memorandum of their names and residences at the Health Office; these are entered in alphabetical order in a register, to be open at all times during office hours to persons desirous of inspecting it. Changes of residence must be signified within thirty days at the office.

* See list on p. 171. † See list on p. 171.

All births must be reported monthly, blank schedules being supplied by the office, giving the full name of each child (if any name has been conferred), its sex, color, the full name and occupation of the parent or parents, and the day and place of its birth. If no practitioner of midwifery is in attendance, the parent or parents must report the birth within one month thereafter. Ten dollars is the penalty for non-compliance with the rule.

Contagious Diseases.—Every person practising physic, and having a patient laboring under a pestilential or contagious disease (measles excepted), must make a written report forthwith to the Health Officer, under a penalty of not more than fifty dollars. The exception just mentioned is practically extended to hooping-cough, scarlet fever, and other diseases usually incident to childhood.

Reports and Certificates of Deaths.—The law in regard to these matters is set forth in the following extracts from "An Act for the Registration of Births, Marriages, and Deaths in the City of Philadelphia," passed March 8, 1860:—

"Sec. 3. That whenever any person shall die in the city of Philadelphia, it shall be the duty of the physician who attended during his or her last sickness, or of the coroner when the case comes under his notice, to furnish within forty-eight hours after the death, to the undertaker or other person superintending the burial, a certificate setting forth, as far as the same can be ascertained, the full name, sex, color, age, and condition (whether married or single) of the person deceased, and the cause and date of death.

"Sec. 4. That no person having the charge, as sexton or otherwise, of any vault, burying-ground, or cemetery within the said city, shall inter or allow to be interred, or place or allow to be placed, in any vault, burying-ground, or cemetery, the dead body of any person, nor shall any undertaker or other person remove the dead body of any person who has died in the said city, and has not been buried, to any place beyond the limits of the said city, without first procuring the certificate of the attending physician or of the coroner. To said certificate the undertaker or other per-

son having charge of the body shall, as far as can be ascertained, add the occupation of the deceased; the place of birth; the ward, street, and number of the house in which the death occurred; the place and date of interment; and, where the deceased is a minor, the full names of the parents. In case any person shall die without the attendance of a physician, or if the physician who did attend at the time of the death refuses or neglects to furnish a certificate as aforesaid, it shall be the duty of the undertaker, or of any other person acquainted with the facts, to report the same to the Health Officer, who shall be authorized to give a certificate of death as aforesaid, provided it be not a case requiring the attendance of the coroner. Every sexton or other person having charge of any vault, burying-ground, or cemetery within the said city, and every undertaker or other person who shall remove any dead body from or out of the said city, shall return the said certificates to the Health Officer before twelve o'clock M., on the Saturday of every week, accompanied by a schedule of the same, which returns shall be published weekly by the Health Officer, in such manner as may be designated by the Board of Health.

"Sec. 5. That in case any physician or the coroner shall refuse or neglect to furnish such certificate as aforesaid, he shall forfeit and pay the sum of five dollars for each offence; and every undertaker, sexton, or other person removing the dead body of any person, or having charge of any vault, burying-ground, or cemetery, who refuses or neglects to perform any of the duties required by this act, shall forfeit and pay for every such offence the sum of twenty-five dollars; which sums shall in every case be recoverable in the manner and for the uses prescribed in an act entitled 'An Act for establishing a Health Office,'" etc.

"Sec. 11. That the Health Officer shall receive, for the use of the Board of Health, fifty cents for granting a certificate or certified copy of the record of any marriage, birth, or death, and ten cents for making a search for either a marriage, birth, or death, which sums shall be paid by the party applying for the certificate or search; but the said registers shall at all times be accessible to physicians, clergymen, and lawyers, without charge."

Disposition of Dead Bodies.—In order to the interment of a body, a certificate is absolutely necessary, signed either by a physician, by the Coroner, or by the Health Officer. No *written* certificate can be received, unless it comes from the country, or from another State, as none such is admitted at the Registration Office.

Bodies brought from beyond the limits of the city for interment, if in charge of a city undertaker, must have his certificate appended to the certificate of death.

No disinterment or removal of a body from one grave or vault to another in the same burial-ground or cemetery, or from one burial-ground or cemetery to another, is allowed without a permit from the Health Office.

A permit from the Health Officer is necessary for the removal of a body from the city for burial, and can be obtained by the undertaker, or other person having the body in charge, by application at the Health Office. The same rule applies to bodies merely in transit through the city—a permit must be obtained.

The following table, taken from the annual report of the Health Officer, will show a general summary of the returns of this Department for the past seven years.

Years.	Births.	Marriages.	Deaths.
1861	17,271	4,417	14,468
1862	14,741	4,662	15,097
1863	15,293	5,474	15,788
1864	15,591	6,752	17,582
1865	15,428	6,864	17,169
1866	17,437	7,087	16,803
1867	17,007	6,084	13,933
	112,768	41,340	110,840

The following statement of the number of vaccinations performed by the Vaccine Physicians, is taken from their report.

Districts.	Physicians.	Total.
First	John T. Williams.	391
Second	E. C. Dougherty.	181
Third	J. G. Allen.	220
Fourth	H. St. Clair Ash.	1090
Fifth	Isaac H. Conrad.	928
Sixth	Samuel N. Troth.	846
Seventh	John L. Ribl.	491
Eighth	John F. Lamb.	1382
Tenth	E. Crowell.	660
		6189

OFFICERS APPOINTED BY THE GOVERNOR OF THE STATE.

Chief Clerk: William L. Troth.

Assistant Clerks: Augustine T. Lynch, Robert S. Carns.

Chief Registration Clerk: George E. Chambers.

Assistant Registration Clerks: John C. Sees, Hamilton Patterson, Charles Wirgman.

The Coroner

Is appointed by the electors of the County every three years. The present incumbent is Samuel Daniels, and his Deputy, James M. Fletcher. His office is at No. 104 South Fifth Street, below Chestnut, under the office of the Highway Department.

The Coroner's functions are sufficiently defined in the following extract from an act of the General Assembly, approved the 22d day of March, A. D. 1867, which declares—

"That it shall be the duty of the Coroner of the City and County of Philadelphia, to hold an inquest on the body of any deceased person who shall have died a violent death, or whose death shall be sudden; provided, that such sudden death be after an illness of less than twenty-four hours, and that no regular practising physician shall have been in attendance within said time, or that suspicious circumstances shall render the same necessary, which said suspicions shall first be sworn to by one or more citizens of said city."

Violent deaths include homicides, death from criminal abortion, infanticides, suicides, and deaths from any kind of accident—such as injuries from having been run over in the street, from machinery, from falls, burns, scalds, or accidental poisoning or drowning, etc. In any of the above or like cases, it is the duty of the physician to refuse to give a certificate of death. The Coroner should at once be notified.

When a physician, attending a person who has been injured by the criminal act of another, discovers that his patient is in imminent danger of death, in order that justice should be done, it is his duty to give

notice to the Coroner of the fact, so that a dying declaration may be taken, and the offender arrested.

The duties of the physician in case of sudden death are clearly indicated by the act and proviso. No physician should give a certificate of a death when it is impossible for him to have exact knowledge of its cause.

Notice should be sent to the Coroner's office, No. 104 South Fifth Street, below Chestnut, or to any police station.

U. S. Army Medical Service.

Brig.-General J. K. Barnes, M. D., Surgeon-General, Washington, D. C.

The Medical Officers of the U. S. Army, on duty in Philadelphia, are:—

1. Brev. Brigadier-General C. McDougall, Assistant Medical Purveyor, 1139 Girard Street.
2. Brev. Brigadier-General J. M. Cuyler, Medical Director, Department of the East, 1139 Girard Street.
3. Dr. John Neill, Act. Asst. Surgeon, examining recruits, 118 South Second Street.

The following memorandum has been issued for the information of persons desirous of entering the Medical Corps of the U. S. Army:—

[EXTRACTS FROM LAWS OF THE UNITED STATES.]

Act of Congress, *Approved* June 30, 1834.

"Sec. 1. *Be it enacted, &c.*, That from and after the passing of this Act, no person shall receive the appointment of assistant surgeon in the army of the United States, unless he shall have been

examined and approved by an Army Medical Board, to consist of not less than three Surgeons or Assistant Surgeons, who shall be designated for that purpose by the Secretary of War; and no person shall receive the appointment of Surgeon in the Army of the United States, unless he shall have served at least five years as an Assistant Surgeon, and unless, also, he shall have been examined by an Army Medical Board constituted as aforesaid."

Act of Congress, *Approved* July 28, 1866.

"Sec. 17. *And be it further enacted*, That the Medical Department of the Army shall hereafter consist of one Surgeon-General * * * * One Assistant Surgeon-General * * * * One Chief Medical Purveyor and four Assistant Medical Purveyors * * * * Sixty Surgeons, with the rank, pay, and emoluments of Majors of Cavalry. One hundred and fifty Assistant Surgeons, with the rank, pay, and emoluments of First Lieutenants of Cavalry, for the first three years' service, and with the rank, pay, and emoluments of Captains of Cavalry after three years' service. * * * *"

All candidates for appointment in the Medical Corps, must apply to the Surgeon-General U. S. Army, for an invitation to appear before the Medical Examining Board. The application must be in the hand-writing of the candidate, stating age and birthplace, and be accompanied by testimonials from professors of the college in which he graduated, or from other physicians of good repute. If the candidate has been in the Medical Service of the Army during the war, the fact should be stated, together with his former rank, and time and place of service, and testimonials as to qualifications and character from officers with whom he has served should also be forwarded.

Candidates must be graduates of some regular Medical College, proof of which must be submitted to the Board before examination, and they must be between twenty-one and thirty years of age.

The morals, habits, and physical and mental qualifications of each candidate will be subjects for careful examination by the

Board, and a favorable report will not be made in any case in which there is a reasonable doubt.

The following will be the general plan of examination:—

1. A short essay, either autobiographical or upon some professional subject—to be indicated by the Board.

2. Physical examination. This will be rigid, and each candidate will be required to certify "*that he labors under no mental or physical infirmity, nor disability of any kind which can in any way interfere with the most efficient discharge of his duties in any climate.*"

3. Examination as to general aptitude and education.

4. Written examination on anatomy, physiology, hygiene, surgery, and practice of medicine.

5. Oral examination on each of the above mentioned subjects, and also on obstetrics, general pathology, chemistry, toxicology, medical jurisprudence, and materia medica.

6. Clinical examination, medical and surgical, at a hospital.

7. Performance of surgical operations on the cadaver.

The Board will deviate from this general plan whenever necessary, in such manner as they deem best to secure the interests of the service.

The Board will report the merits of the candidates in the several branches of the examination, and their relative merit in the whole, according to which, if vacancies exist within two years thereafter, *the approved* candidates will receive appointments and take rank in the Medical Corps.

An applicant failing at one examination, may be allowed a second after one year, but not a third.

No allowance will be made for the expenses of persons undergoing examination, as this is an indispensable prerequisite to appointment, but those who are approved and receive appointments, will be entitled to transportation on their obeying their first order.

If the result of the examination of a candidate be satisfactory, he will be offered a contract for duty as Acting Assistant Surgeon until such time as he can be appointed or commissioned as Assistant Surgeon.

The pay and emoluments of Surgeons and Assistant Surgeon[illegible] are shown by the following table:—

	Pay per month.	No. of rations per day.	Amount of rations per month.	Servants.					Aggregate amount receivable.	Forag[illegible] fur[illegible]sh for hor[illegible] when actual[illegible] kept.	
				No. for which pay is allowed.	Am't allowed for pay per month.	Am't allowed for clothing per m'th.	Am't allowed for rations per m'th.	Total amount allowed per month.		In time of war.	In time of
Assistant Surgeon, under three years' service	$53.33	4	$36	1	$16	$6.50	$9	$31.50	$120.83	2	
Assistant Surgeon, over three years' service	70.00	4	36	1	16	6.50	9	31.50	137.50	3	
Assistant Surgeon, over ten years' service	70.00	8	72	1	16	6.50	9	31.50	173.50	3	
Surgeon, under ten years' service .	80.00	4	36	2	32	13.00	18	63.00	179.00	4	
Surgeon, over ten years' service .	80.00	8	72	2	32	13.00	18	63.00	215.00	4	

In addition to the above, Surgeons and Assistant Surgeons are allowed an additional ration per day, after the termination of every five years' service.

Quarters and fuel, or commutation therefor, are also furnished to Medical Officers.

The number of vacancies now existing in the Medical Corps of the Army is .....

JOS. K. BARNES,
Surgeon-General U. S. Army.

WAR DEPARTMENT,
Surgeon-General's Office,
January 1, 1868.

Naval Medical Service.

Commodore P. J. HORWITZ, M. D., Chief of Bureau of Medicine and Surgery, Washington, D. C.

The following Medical Officers of the Navy Department of the U. S., are on duty in Philadelphia.

Naval Asylum.

Surgeon, GEORGE MAULSBY. Assist. Surg., J. ALBERT HAWKE.

Naval Rendezvous.

Surgeon, J. MCCLELLAND. Act'g Assist. Surg., M. C. DRENNAN.

Navy Yard.

Surgeon, J. S. MESSERSMITH. P. Assist. Surg., E. C. VER MEULEN.

Receiving Ship Constellation.

Surgeon, WM. LOWBER. Assist. Surgeon, ADAM FRANK.

The subjoined regulations for admission and promotion in the Medical Department of the Navy are those in force at the present time.

It is prescribed by law that no person shall be appointed in this branch of the service who has not been examined and found qualified by a Board of Naval Surgeons, designated by the Secretary of the Navy.

A Board of Naval Surgeons will be assembled annually, at such place as may be indicated by the Department, usually about the close of the lecture season of the colleges, for the examination and selection of candidates for admission into the Medical Corps of the Navy, as well as for the examination of Assistant Surgeons who may be candidates for promotion.

Application for permission to attend the examination for admission to the Medical Corps of the Navy must be addressed to the Secretary of the Navy, stating the age and residence of the applicant, and be accompanied by respectable testimonials of his possessing the moral and physical qualifications requisite for filling

creditably the responsible position of a Medical Officer of the Navy.

The application of no one will be considered who is under twenty-one or over twenty-six years of age.

The permission will state the time and place of the meeting of the Board.

The Board rigidly scrutinizes the physical qualifications of each candidate, as well as his moral, mental, and professional fitness for the Naval Service; and reports favorably upon no case admitting of a reasonable doubt, as the health and the lives of the officers and men of the Navy are objects too important to be intrusted to ignorant or incompetent persons.

The Board reports the relative merit of the candidates as shown by the examination; and appointments will be made in the Navy as vacancies may occur, in the order in which they may be reported by the Board.

No qualified candidate will be held over for appointment beyond one year; if not appointed within that time, it will be necessary for a candidate to be re-examined, when he will take position with the class last examined.

Physical examination will precede the professional. No candidate not physically qualified for the active duties of the service will be examined professionally. The Board will make a separate report in each case of the physical condition *direct* to the Department, to be placed on file with the testimonials of the candidate.

No allowance is made for the expenses of persons undergoing these examinations, as they are indispensable prerequisites to appointment.

Assistant Surgeons are entitled to an examination for promotion after they have passed two years "on board a public vessel of the United States at sea."

In order that the relative position of Assistant Surgeons of the same date, who shall be examined for promotion at different times, may be more readily determined, a majority of the members of the Board will be selected, if practicable, from those who served on the next preceding Board.

Assistant Surgeons who are candidates for promotion shall present to the Board testimonials of correct deportment and habits of industry from the Surgeons with whom they have been associated on duty; also, a Journal of Practice, or Case Book, in their own hand-writing. They are expected to be familiar with all the details of duty specified in the "Instructions for the government of Medical Officers."

Any Assistant Surgeon who shall fail to present himself for examination after he has been ordered (unless for reasons which may be satisfactory to the Department), or who, after examination, shall be reported by the Board as "not qualified" for promotion, shall be dropped from the list of Officers of the Navy.

GIDEON WELLES, *Secretary of the Navy.*

COMPENSATION.

The pay of Assistant Surgeons and Surgeons is established by act of Congress, approved on the 1st of June, 1860, and is as follows:—

FLEET SURGEONS	$3,300 00
SURGEONS—	
On duty at sea—	
For first five years after date of commission as surgeon	2,200 00
For second five years after date of commission as surgeon	2,400 00
For third five years after date of commission as surgeon	2,600 00
For fourth five years after date of commission as surgeon	2,800 00
For twenty years and upwards after date of commission	3,000 00
On other duty—	
For first five years after date of commission as surgeon	2,000 00
For second five years after date of commission as surgeon	2,200 00
For third five years after date of commission as surgeon	2,400 00
For fourth five years after date of commission as surgeon	2,600 00
For twenty years and upwards after date of commission	2,800 00
On leave or waiting orders—	
For first five years after date of commission as surgeon	1,600 00
For second five years after date of commission as surgeon	1,800 00
For third five years after date of commission as surgeon	1,900 00
For fourth five years after date of commission as surgeon	2,100 00
For twenty years and upwards after date of commission	2,300 00

PASSED ASSISTANT SURGEONS—	
On duty at sea	1,500 00
On other duty	1,400 00
On leave or waiting orders	1,100 00
ASSISTANT SURGEONS—	
On duty at sea	1,250 00
On other duty	1,050 00
On leave or waiting orders	800 00

Add one-third to the foregoing amounts, by regulation.

FORM OF APPLICATION.

_____, 186 .

To the Secretary of the Navy:

I respectfully make application for examination as to my qualifications for appointment as Assistant Surgeon in the United States Navy. I was _____ years of age on the _____ day of _____, 186 , and reside in _____ county of _____, and State of _____. I forward herewith testimonials of moral and physical qualifications.

Very respectfully,

_____.

The following further statements are made by authority of the Chief of Bureau:—

Candidates for admission will be required to write a letter to the Board, stating how far they have complied with the requirements of the Department; their age, their birthplace, place of collegiate or academic education, of medical education, whether graduated or not; name and residence of medical instructor.

If the statement be satisfactory, a subject is to be proposed by the Board, upon which the candidate shall write a dissertation in private, a specified time being allowed him for this purpose. Upon the general character of this thesis, its literary and professional evidences, it shall be decided whether or not a professional examination be commenced.

Gross errors of grammar or orthography, and other marks of illiteracy, and manifest ignorance of professional subjects, shall be sufficient to preclude further examination.

If the professional examination be admitted, then—

1. A series of written questions shall be submitted to the candidate, to be answered in like manner in private, embracing the leading features of the various departments of the profession.

2. Object examination shall embrace the appearance and physical properties, as well as the chemical composition and therapeutic uses, of the various articles of the materia medica; writing prescriptions, and the art of compounding medicine.

3. The candidate shall be required to diagnose such cases in the wards of the hospital as the Board shall indicate, and to assign reasons for his conclusions; also to perform such dissections or operations on the cadaver as opportunity may permit, and apply splints, bandages, &c.

4. The oral examination will be as comprehensive as the Board may think necessary to determine fully the competency of the candidate.

The candidate may introduce a friend to the examination-room at any time, except when occupied in preparing his thesis or answers to written questions.

The written questions and answers shall be forwarded to this Bureau.

The report of the Board to the Bureau will be made according to a form which will be submitted.

The physical qualifications of candidates will be carefully scrutinized. The Board will be particular to approve no person whose health is not such as will permit him to discharge the duties ordinarily devolving upon a medical officer of the navy.

At the conclusion of the examination, the Board will announce the result by letter to the candidate.

It is proper to add that before the Board everything is done to prevent the candidate from becoming confused, that no questions are ever propounded that a gentleman prepared to practise his

profession should not answer, and that "catch questions" are not permitted to be asked, nor is a candidate examined on subjects not connected with the profession, unless he desires it.

Board of Examining Surgeons for Pensions.

Odontographic Society of Philadelphia,

ORGANIZED MAY 19, 1863.

This Society was instituted with the view of promoting professional and social intercourse among dental practitioners, and to encourage a disposition for investigation on their part in every direction which relates to the principles and practice of the profession or collateral sciences. The Society consists of active, corresponding, and honorary members. Stated meetings are held on the first Tuesday of each month, at 8 o'clock P. M., at the Philadelphia Dental College. The transactions of the Society are published in book form, and those of the first three years embrace a volume of about 350 pages, with a number of illustrations.

Fee Bill.

ADOPTED BY THE COLLEGE OF PHYSICIANS OF PHILADELPHIA IN 1863.

"The following table of charges being founded on a just consideration of the professional services which

the Fellows of the College are called upon to perform, it will be considered a duty on their part to conform to it, whenever the circumstances of their patients are not such as clearly to forbid such a course."—(*Charter, Ordinances, and By-Laws*, p. 57.)

For a single visit, or for advice at office, in a case in which no further visit or advice is required . .	$10 00
This is not intended to apply to those cases in which the physician is considered the regular medical attendant of the individual or of his family.	
For the first visit, in a case in which the physician is in regular attendance	5 00
For each subsequent visit	2 00
Every necessary visit on the same day, whatever may be their number, to be charged at the same rate.	
When at the first visit in a case minute physical exploration is required in order to arrive at a correct diagnosis	10 00
When the physician is detained, for each hour . .	5 00
For a visit at a time appointed by the patient or his friends, during the daytime	5 00
For advice given at the physician's office . . .	5 00
For such advice when minute physical exploration is required	15 00
For subsequent advice at office to the same individual for the same malady	2 00
For a written opinion or advice to a patient . . .	20 00
For a visit at night after ordinary bedtime . . .	5 00
For a visit after night in stormy or inclement weather .	10 00
For a first visit as consulting physician . . .	8 00
For each subsequent visit as consulting physician, in the same case	3 00
For each visit of the attending physician, in a consultation	3 00
For a visit as consulting physician during the night. .	15 00

In all visits to distant patients, two dollars to be added in addition to the ordinary fee for each mile over two between the residence of the patient and that of the physician, without regard to the mode of conveyance. An additional fee of $2 to be charged for crossing the river Delaware.

An extra charge to be made for travelling at night, or on account of the badness of the roads, or the inclemency of the weather.

For an opinion involving a question of law	25 00
For a post-mortem examination, in a case of legal investigation	30 00
For a post-mortem examination made at the request of the family or relatives of a deceased person . .	20 00
For a certificate of the state of health of a patient .	10 00
For a similar certificate in all other cases	25 00
For vaccination or re-vaccination	5 00
For an ordinary case of midwifery	30 00
For a difficult case of midwifery	50 00

For every hour the obstetrician is detained beyond twelve, an additional fee of $1.

For the application of the forceps	15 00
For the operation of turning	20 00
For the operation of embryulcia	25 00
For the Cæsarean operation	250 00

For any indisposition in the mother or child, after the tenth day from confinement; or when any *very serious* ailment occurs in either mother or child *within* the ten days, a charge is to be made for each visit as in ordinary cases of disease.

For reducing fractures, and the first dressing . .	25 00

In the above and in all other surgical operations the subsequent visits are to be charged as in attendance on ordinary cases of disease, the amount of charge being proportioned always to the time occupied and the trouble incurred in the subsequent attendance in each case.

For reducing recent luxations	15 00
For reducing old luxations	60 00
For amputation of a leg or arm	50 00
For amputation at the shoulder-joint	200 00
For amputation at the hip-joint	250 00
For amputation of a finger or toe	10 00
For resection of large bones and joints	150 00
For resection of the smaller bones and joints	50 00
For tenotomy	30 00
For the operation for artificial joint	150 00
For the extirpation of tumors in dangerous localities	100 00
For the extirpation of other tumors	30 00
For trephining	150 00
For operation for cataract or artificial pupil	150 00
For other operations on the eye and its appendages	30 00
For the removal of polypus from the nares	30 00
For the operation for cleft palate	60 00
For the operation for hare-lip	25 00
For the operation of tracheotomy	50 00
For excision of the tonsils	15 00
For the operation for removal of a nævus or aneurism by anastomosis	15 00
For the introduction of the stomach pump	20 00
For the ligation of the subclavian, carotid, iliac, or femoral arteries	200 00
For the removal of foreign substances from the ear, nares, pharynx, or œsophagus	25 00
For the reduction of hernia by taxis	15 00
For the operation for strangulated hernia	100 00
For paracentesis thoracis	30 00
For paracentesis abdominis	20 00
For the operation for vesico-vaginal, or recto-vaginal fistula	100 00
For examination per anum or vaginam without speculum	10 00
For examination with speculum	15 00
For the introduction of a pessary	5 00

For the removal of polypus from the uterus or rectum .	30 00
For the operation for fistula in ano	25 00
For the operation of fistula in perineo	60 00
For the operation for hæmorrhoids	25 00
For the operation for imperforate anus, vagina, etc. .	20 00
For the reduction of prolapsus ani	20 00
For the removal of stone from bladder	200 00
For the palliative operation for hydrocele	10 00
For the operation for the radical cure of hydrocele .	25 00
For the operation for phimosis and paraphimosis . .	20 00
For division of stricture of the urethra	25 00
For the introduction of the catheter, in ordinary cases .	2 00
For the introduction of the catheter, in cases of obstruction	15 00
For plastic operations	150 00
For laying open an abscess or sinuses	5 00
For the administration of an anæsthetic	10 00
For the introduction of a seton, or forming an issue .	10 00

It is recommended that in all cases of gonorrhœa and syphilis, a fee of from $10 to $25 be required in advance, the subsequent charge being graduated by the amount of the after attendance in each case.

It is not to be understood that the omission of any operation or other surgical service from the foregoing fee bill is a denial of the right to charge for such operation or service a fee proportionate to its nature, extent, and importance.

Physicians should present their account at least semi-annually, or as much oftener as they may deem proper.

The Obstetrical Society of Philadelphia.

This Society has completed its organization since the present work was put in press, and too late for insertion in its proper place. The plan has excited much interest; it will be set forth in the following extracts from the Constitution adopted by the founders of the Society:—

"The object of the Society shall be to advance the study of obstetrics and the diseases of women and children, by the presentation of specimens and the free discussion of subjects of interest properly belonging to these several branches of medical science." (*Constitution*, Art. II.)

"The regular meetings of the Society shall be held on the first Thursday of each month, at 8 P. M." (*Constitution*, Art. XV.)

"The initiation fee of the Society shall be three dollars, and each member shall be required to contribute, annually, two dollars, payable the first week in January." (*Constitution*, Art. XIV.)

Officers.

President, Dr. Francis G. Smith.
Vice-Presidents, Drs. J. F. Meigs and Ellwood Wilson.
Secretary, Dr. George Pepper.
Treasurer, Dr. D. Murray Cheston.
Curator, Dr. Horace Williams.

Council.—The President, Vice-Presidents, Secretary, and Treasurer, *ex officio*, and four councillors, Drs. Lewis D. Harlow, Robt. P. Harris, Lewis Rodman, and Thos. G. Morton.

List of Members.

SECTION VII.

DIRECTORY OF PHYSICIANS.

Adler, John M., 1028 Arch street.
7 to 9 a. m.; 2 to 4 and 7 to 10 p. m.

Adler, Lewis H., 134 N. 10th street.
7 to 9 a. m.; 1 to 3 and 6 to 7 p. m.

Agnew, D. Hayes, 1611 Chestnut street.
8 to 9 a. m.; 2½ to 4 p. m.

Agnew, Erwin, 1126 Arch street.
7 to 9 a. m.; 2 to 4 p. m.

Aitken, H. L., 1515 Spring Garden street.

Allaband, Samuel C., 1829 S. 2d street.

Allen, George W., 1112 S. 15th street.
9 a. m.; 3 p. m.

Allen, Harrison, 225 N. 13th street.
8 to 9 a. m.; 2 to 3 and 7 to 8 p. m.

Allen, Joshua G., 1237 Spruce street.
8 to 9 a. m.; 2½ to 3½ and 7 p. m.

Allis, O. Huntington, 225 S. 9th street.
7 to 9 a. m.; 1 to 3 and 6 to 8 p. m.

Andrews, T. Hollingsworth, 329 S. 18th street.
8 to 10 a. m.; 2 to 3 and 6 to 7 p. m.

Ash, Henry St. Clair, 1112 Vine street.
8 to 9 a. m.; 2 to 3 and 7 to 8 p. m.

Ash, James, 21 N. 10th street.
8 to 9 a. m.; 2 to 3 and 7 to 8 p. m.

Ashhurst, Francis, 1420 Walnut street.
8 to 9 a. m.; 5 to 7 p. m.

Ashhurst, John, Jr., 2000 W. De Lancey Place.
9 to 10 a. m.; 3 to 4 p. m.

Ashhurst, Samuel, 1423 Walnut street.
8 to 10 a. m.; 5 to 7 p. m.

Ashmead, William, 4788 Main street, Germantown.

Ashton, Samuel K., School House lane, Germantown.

Atkinson, William B., 1400 Pine street.
Until 9 a. m.; 2 to 4 and 7 p. m.

Atlee, Walter F., 210 S. 13th street.

Atlee, Washington L., 1408 Arch street.
1 to 3 p. m.; Wednesdays and Sundays excepted.

Bache, T. Hewson, 233 S. 13th street.
9 a. m.; 4 p. m.

Bacon, James, 525 S. 8th street.

Bahl, Charles H., 1233 N. 5th street.
7 to 9 a. m.; 5 to 7 p. m.

Baker, Charles S., 623 Master street.

Baker, Frank A., 416 S. 11th street
7 to 8 a. m.; 12 to 2 and 7 to 9 p. m.

Baldwin, Louis K., 1828 Coates street.
7 to 9 a. m.; 2 to 4 and 7 to 8 p. m.

Ballou, G. M., 1543 N. 13th street.

Baratet, Prosper A., 2004 Pine Street.
8 to 9 a. m.; 1 to 2 and 7 to 8 p. m.

Barclay, R. G., S. 17th bet. Spruce and Pine streets.

Barr, David Miller, 1215 Pine street.
8 to 9 a. m.; 2 to 3 and 6 to 7 p. m.

Bartine, D. H., 644 N. 11th street.

Barton, M., 1917 Green street.

Bartles, William H., 727 N. 5th street.

Bartram, Thomas S., 1604 Richmond street.

Batten, A. Nelson, 811 Race street.

Baxter, Harry F., 228 Pine street.
8 to 9 a. m.; 2 to 3 p. m.

Beale, Joseph B. (U. S. N.), 1805 De Lancey Place.

DR. H. ALLEN, University of Pennsylvania.
DR. W. PEPPER, 1215 Walnut Street.

Jefferson Medical College.

MEDICAL EXAMINATIONS

BY

DRS. TAYLOR, ANDREWS, GROSS, AND MAURY.

A SUMMER COURSE of examinations upon the subject-matter of the Lectures delivered in the Jefferson Medical College, will be given by the Examiners, commencing in April, and continuing during the months of April, May, June, and September.

The WINTER COURSE commences in October and continues to the close of the regular winter session.

Chemistry, Physiology, and Obstetrics,..... Dr. JAMES TAYLOR.
Materia Medica and Practice of Medicine,... Dr. T. H. ANDREWS.
Anatomy,..... Dr. S. W. GROSS.
Surgery,..... Dr. F. F. MAURY.

The Examiners will also deliver brief discourses upon the most important topics relative to each respective branch.

Ample opportunities will be afforded for bedside instruction, during the service of Dr. Maury in the wards of the Philadelphia Hospital (Almshouse); and the Class will also have access to the Clinic of the Philadelphia Orthopædic Hospital.

The examinations will be fully illustrated on all the branches, and will be held in the Lecture Room of the Association, in the rear of the College, on Butler's Avenue, entrance from Sansom Street, above Tenth.

For further information apply to either of the undersigned.

JAMES TAYLOR, M. D., SECRETARY,
Assistant Demonstrator of Anatomy,
No. 622 South Tenth Street.

T. H. ANDREWS, M. D.,
Assistant Demonstrator of Anatomy,
No. 329 South Eighteenth Street.

S. W. GROSS, M. D.,
Surgeon to the Phila. Orthopædic Hospital,
S. E. Cor. Walnut and Eleventh Sts.

F. F. MAURY, M. D.,
Lecturer, Summer Association,
Jefferson Medical College.
Lecturer, Philadelphia Hospital,
No. 1005 Walnut Street.

Jefferson Medical College

DISSECTING ROOMS.

The Dissecting Rooms of the College are open to Students during the whole year, save the months of July and August.

During the summer session lectures are delivered on Visceral and Surgical Anatomy by the Demonstrator, in connection with the Summer School of the College.

The students are formed in classes, for dissecting, under the direction of the Demonstrator and his assistants.

During the winter session the Demonstrator recapitulates the daily lectures on Anatomy, and in addition will lecture on Surgical Anatomy every Monday evening.

Fee $10.

Students wishing to take a course on Operative Surgery, and to perfect themselves in Minor Surgery (Bandaging, &c.), can do so, and are formed in classes under the direction of the Demonstrator.

The lectures are thoroughly illustrated with preparations of every variety, and microscopical drawings.

The Demonstrator is aided by an efficient staff of Assistant Demonstrators.

For further information, apply at the College, or the residence of

WM. H. PANCOAST, M.D.,
Demonstrator of Anatomy,
1100 WALNUT ST.

First Assistant Demonstrators.

JAMES TAYLOR, M.D. T. H. ANDREWS, M.D.

Second Assistant Demonstrators.

H. LEAMAN, M.D. RALPH M. TOWNSEND, M.D.

Jefferson Medical College.

MEDICAL EXAMINATIONS
BY
Drs. WARDER, McARTHUR, and LEAMAN.

The WINTER TERM commences October 1st, and continues until the close of the regular winter session of the College.

The SUMMER TERM commences April 1st, and continues, with the exception of July and August, until October 1st.

FEES.

For Quiz	*$30*
For Office Students (One Year)	*100*

ROOMS.

Chant St.—Tenth St., near Chestnut, Philadelphia.

Apply to Dr. W. H. WARDER, 810 North Broad St.
" J. A. McARTHUR, 631 Spruce St.
" H. LEAMAN, 231 North Eleventh St.

Winter and Summer Examinations.

Drs. HICKMAN, TYSON, and WOOD

will continue their Examinations on the branches taught at the University of Penna., as follows:

ANATOMY AND SURGERY,
Dr. HICKMAN, 1121 Spruce St.

PRACTICE OF MEDICINE,
INSTITUTES AND OBSTETRICS,
Dr. TYSON, 332 South Fifteenth St.

MATERIA MEDICA AND CHEMISTRY,
Dr. WOOD, 144 North Twelfth St.

For further particulars, inquire of either of the above, at their residences, or at the University of Penna.

Philadelphia School of Anatomy,

CHANT STREET (Tenth Street above Chestnut).

The Winter Course on Anatomy will begin in October, and the Summer Course in April of each year.

A systematic Course of Lectures on Descriptive and Surgical Anatomy is delivered in each Term, illustrated by Dissections, Models, Drawings, &c. The Microscopic Anatomy of the various tissues will be shown by the Class Microscope.

The Dissecting Rooms are open all the year, save during July and August, and are amply supplied with material.

Courses on Operative Surgery, Bandaging, Fractures, and Fracture Dressings, are given by Drs. KEEN and J. E. MEARS; when each Student applies practically all the Dressings, and performs all the Operations after suitable demonstrations.

Any who desire to pursue special courses at any time, and Candidates for the Army and Navy, are afforded special facilities.

For further information apply at the Rooms, or to

W. W. KEEN, M.D.,
1619 Chestnut Street.

Practical Obstetrics and Diseases of Women.

OBSTETRIC DEPARTMENT
OF THE
Philadelphia Dispensary,

No. 15 N. Thirteenth St.

In connection with the above Institution, Clinics are conducted every Wednesday and Saturday, from 10 to 11 o'clock A. M.

Students of Medicine and recent Graduates are afforded opportunities of becoming familiar with the *diagnosis* and *treatment* of the most varied and important diseases peculiar to women.

Gentlemen are admitted to the Clinic for a term of three months, with the privilege of attending obstetric cases during six months.

Classes formed in October and April.

Tickets.....$15.

Apply at the Institution on Clinic days, or to

E. A. SPOONER, M.D., 311 S. Fifteenth Street.

PRACTICAL OPHTHALMOSCOPY.

EVENING DEMONSTRATIONS WITH THE OPHTHALMOSCOPE.

Wills Hospital, Race Street above Eighteenth, Philadelphia.

A Fifth Course will begin early in April, in the Operating Room of the Hospital, and will be continued weekly until the first of July.

It will be the aim of the Instructor to give the Student a working knowledge of the use of the Ophthalmoscope in the diagnosis of Diseases of the Internal Eye, and with this view especial care will be taken that the observations are verified by each member of the Class.

The special studies will be the Natural and Morbid Appearances of the Optic Nerve, the Retina, Choroid, Vitreous Humor, and the various degrees of Lenticular Opacity.

For illustration and comparison the best and most recent foreign colored drawings will be provided.

Gentlemen desirous of taking the ticket may apply to

A. D. HALL, one of the Surgeons to Wills Hospital,
1623 SPRUCE STREET.

Fee for the Course, $10.

The Wills Ophthalmic Hospital,

Race Street, between Eighteenth and Nineteenth,

PHILADELPHIA.

A COURSE OF LECTURES AND PRACTICAL INSTRUCTION IN OPHTHALMIC SURGERY will be given in the Institution during the months of November and December.

The Course will embrace the most important subjects of Ophthalmic Science, including the Anatomy of the Eye, the Physiology of Vision, Ophthalmoscopic Diagnosis, Optical Defects of Vision, and the Pathology and Operative Surgery of the Eye.

Instruction will be made demonstrative with abundant material for illustration, by Dissections, Models, Drawings, and Optical Apparatus.

Attention will be given to the instruction of each member of the Class in the practical use of the Ophthalmoscope.

The Operative Clinics of the Hospital will present an extended field for observing the Operative Surgery of the Eye.

FEE, TEN DOLLARS.

R. J. LEVIS, M.D., Surgeon Wills Hospital,
No. 1104 Arch Street.

RICHARDSON'S QUIZ.

D. D. RICHARDSON, M.D., . . . PRINCIPAL.
J. SOLIS COHEN, M.D., ... ADJUNCT.

ROOMS—Chant St.—Tenth above Chestnut.

Students prepared for Army and Navy Examinations. Also, for the Degree of Doctor of Medicine.

RESIDENCE, Darby Road below 37th Street, West Philadelphia.

ARTIFICIAL LIMBS, ETC.
IN THE
UNIVERSAL EXPOSITION, PARIS, 1867.

☞ The REPORTER offers *Advertisers* the best medium there is of reaching the medical profession.

The Half-Yearly Compendium of Medical Science.

This Synopsis of *American* and *Foreign* Medical Literature was begun January, 1868. It contains more and a greater variety of material, and more systematically arranged, than any other similar work in the English language. Price, $3 per annum. ☞ Send for a Prospectus.

The Physician's Daily Pocket Record.

Admitted to be the best Physician's Visiting List and Pocket Manual published. It contains many new features, among which are a List of New Remedies, Doses of Medicines by Inhalation, Hypodermic Injection, Suppositories, etc.; Classified List of Medicines, with doses and prices; Tables for Examination of Urine, etc.; Fee Bills, etc. etc. ☞ *It is* PERPETUAL, *being good for a year from date of purchase.* Price—35 patients a week, $1 50; 70 patients, $2, including postage and name stamped on tuck.

☞ **$8 25** will pay for the REPORTER, COMPENDIUM, and POCKET RECORD for 35 patients for one year.

H. A. GILDEA,

Artificial Limb Maker,

No. 245 South Fifth Street,

PHILADELPHIA.

Dr. Philip S. Wales, U. S. N., in his recent work, "Mechanical Therapeutics," pages 228–234, remarks of H. A. Gildea's Arm:—

"The Artificial Arm of Mr. Gildea for an amputation below the elbow, is an excellent contrivance; and for durability, neatness of finish, and efficiency, CANNOT, I THINK, BE SURPASSED BY ANY YET INVENTED! Its mechanism is simple, and not liable to get out of order; it is moulded in exact imitation of the natural limb, made of willow, and elegantly enamelled."

THE REGULAR SESSION

Commences on the first Monday in November, and continues until the first of March ensuing. The course is so arranged that about eighteen lectures will be delivered each week on the various branches taught in the College.

PRELIMINARY LECTURES AND INSTRUCTIONS.—The Dispensary and Laboratory of the College will be opened on the 1st of September, where ample opportunities will be afforded the student, until the close of the Session, for the prosecution of the practical part of the profession; and during October Preliminary Lectures will be delivered. In this month, as well as through the entire session, a clinical lecture will be given, and operations performed by one of the Professors every Saturday afternoon.

FACULTY.

J. D. WHITE, D. D. S., EMERITUS PROFESSOR.
T. L. BUCKINGHAM, D. D. S., PROFESSOR OF CHEMISTRY.
E. WILDMAN, M. D., D. D. S., PROFESSOR OF MECHANICAL DENTISTRY AND METALLURGY.
G. T. BARKER, D. D. S., PROFESSOR OF DENTAL PATHOLOGY AND THERAPEUTICS.
W. S. FORBES, M. D., D. D. S., PROFESSOR OF ANATOMY AND SURGERY.
JAMES TRUMAN, D. D. S., PROFESSOR OF DENTAL HISTOLOGY AND OPERATIVE DENTISTRY.
HENRY HARTSHORN, M. D., PROFESSOR OF PHYSIOLOGY AND HYGIENE.

EDWIN T. DARBY, D. D. S, DEMONSTRATOR OF OPERATIVE DENTISTRY.
J. M. BARSTOW, D. D. S., DEMONSTRATOR OF MECHANICAL DENTISTRY.

T. L. BUCKINGHAM, DEAN,
243 North Ninth Street.

CLINICAL INSTRUCTIONS.

Four hours each day, with the exception of Saturday, are spent in actual practice under the supervision of competent Demonstrators. Between three and four thousand patients visit the Infirmary during the Session, affording ample opportunities for practice in all the operations the Dentist is generally called upon to perform.

OPERATIVE DEPARTMENT.—To afford every facility to the student to acquire a thorough practical knowledge of this branch, the operating rooms are furnished with twenty-eight chairs, so arranged as to command the best light, and all the appliances for comfort and use.

MECHANICAL DEPARTMENT.—In the Laboratory are all the conveniences for the preparation of the metals, manufacture of teeth, single and block, mounting, &c. Every process known in the profession, which has any value to the mechanical Dentist, is fully taught, and receipts of valuable compounds are freely imparted.

For further information, address

T. L. BUCKINGHAM, Dean,
No. 243 North Ninth St., Philadelphia.

Orders from a distance will receive prompt attention; will be carefully packed and sent by Express, Mail, or as directed.

PARRISH'S OUTFITS,

For Physicians commencing Practice in the Country.

Having been for more than twenty years engaged in supplying physicians with medicines, to meet the requirements of country practice, and especially in fitting out young men about commencing, we have published lists arranged so as to comprise a fair assortment of medicines and implements at definite prices, suited to the varied circumstances of purchasers.

The bottles, which have ground glass stoppers, are made in our own moulds, of superior, very hard and tough glass, with good surface, and labelled with the officinal names on uniform yellow labels, which, being varnished, are permanent and neat.

Herbs and some other perishable drugs are inclosed in cases with similar labels.

All the medicines in these outfits are of reliable quality, and most of the preparations are of our own manufacture. They are all taken from the same packages as the medicines for our own large dispensing and prescription business.

Physicians desiring further information will be supplied with printed catalogues by addressing

EDWARD PARRISH,

800 Arch Street, Philada.

Parrish's School of Practical Pharmacy.

For Students of Medicine and Pharmacy.

This Laboratory, established in 1849, is designed to impart a knowledge of

PHARMACEUTICAL MANIPULATIONS,

and of the properties and uses of the PREPARATIONS OF THE U. S. PHARMACOPŒIA, as far as it can be done in the limited time allowed. Also, of the art of WRITING AND COMPOUNDING PRESCRIPTIONS and DISPENSING MEDICINES.

The hours are arranged so as not to interfere with those of the Medical Colleges, or of the Philadelphia College of Pharmacy.

Conversational Lectures and Examinations are given weekly by Prof. Edward Parrish, of the College of Pharmacy; and the

Practical Instruction is under the care of Clemmons Parrish, Graduate in Pharmacy, or of other competent assistants.

Address

EDWARD PARRISH,

800 Arch Street, Philada.

☞ *A printed Syllabus is furnished each Student.* ☜

TEXT BOOK, "Parrish's Pharmacy."

FOUGERA'S

COMPOUND IODINIZED COD-LIVER OIL.

Five times as strong, and as efficacious as Pure Cod-liver Oil.

The immeasurable therapeutic superiority of this Oil over *all other kinds* of Cod-liver Oil sold in Europe or in this country, is an undeniable fact, established by the gratifying results obtained in Hospitals, and admitted by the most prominent Physicians from all parts of the country, as may be proved by the medical Press in the East, South, and Far West. Since its introduction about nine years ago, it has gradually and steadily increased in favor with the Profession, and may be now regarded as one of the standard preparations of the day.

Fougera's Ready-made Mustard Plaster.

Far superior to the common Mustard Plaster.

Always *ready for use; clean; unalterable; easily transported; very useful and convenient* to physicians, and to persons travelling; *pliable*, so as to be applied to any part, flat or otherwise, on the neck, arms, legs, &c.

At the request of physicians, two kinds are prepared:—

Plaster No. 1 is made of Pure Mustard.

Plaster No. 2 is half the strength of No. 1.

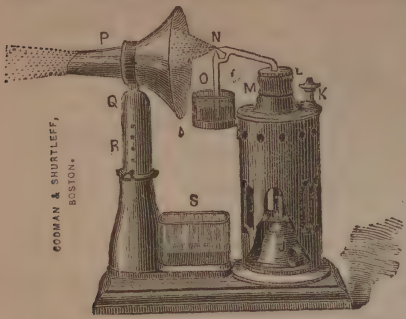
PREPARED AND SOLD BY

E. FOUGERA, Pharmaceutist,

No. 30 North William St., New York.

CODMAN & SHURTLEFF'S

Apparatus for Local Anæsthesia and Atomization of Liquids.



☞ Will be sent by mail (postpaid), on application, a Pamphlet, containing two articles by distinguished foreign authority, on

"Inhalation of Atomized Liquids,"

with formulæ of those successfully employed.

An article by Dr. J. L. W. THUDICHUM, M. R. C. P., on

"A New Mode of Treating Diseases of the Nasal Cavity,"

with his formulæ.

An illustrated description of the *best apparatus* for the above purposes, and for producing Local Anæsthesia by Atomization, with Ether, by the method of Dr. RICHARDSON, of London; or with Rhigolene, as described by Dr. HENRY J. BIGELOW, in the *Boston Medical and Surgical Journal* of April 19, 1866. The following is an extract from a note from Dr. Bigelow:—

"I have thus far found nothing better for freezing with Rhigolene than the tubes made by you after the pattern I gave you, and which I still use with your other apparatus."

Dr. J. MASON WARREN says:—

"Your apparatus for Atomization of Liquids seems to have been carefully made, and I think it an efficient one where required for treatment of diseases of the Throat and Lungs. The apparatus for Local Anæsthesia which you made for me answers the purpose perfectly."

PRICES.

Steam Apparatus complete, with two Glass Atomizing Tubes and Face Shield, packed for transportation $12 00

Hand Ball Apparatus, with two Glass Atomizing Tubes for Inhalation, and one Metal Tube for Local Anæsthesia, packed 6 00

Rhigolene for Local Anæsthesia, best quality, packed 1 00

Nasal Douche, or Apparatus of Dr. THUDICHUM for treating Diseases of the Nasal Cavity, packed..... 2 50 to 3 50

[For complete Illustrated Price-List of the above see pamphlet.]

Our Atomizing Apparatus is made with the utmost care with a view to its complete efficiency, convenience, and durability, and every one is warranted. The Steam Apparatus has been adopted into the "Supply Table," as the standard for the United States Army. A Gold Medal has lately been awarded us by the Middlesex Mechanics' Association, for Atomizing and Surgical Instruments, as will be seen from the following report, signed by a leading New England Surgeon and Physician:—

"1503. Codman & Shurtleff, Boston, Mass. One Case Surgical Instruments and Atomizers.

"The Committee have no hesitation in awarding for this superb exhibition the highest premium. * * * * * * The various other instruments for Inhalation of Atomized Liquids, and for Local Anæsthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except of their own manufacture.

GOLD MEDAL.

(Signed) GILMAN KIMBALL, M. D., *Chairman.*"

The parts of each kind being interchangeable, physicians at a distance can be sure that in ordering tubes, &c., they will be adapted to the apparatus previously purchased.

For sale in Philadelphia by

Messrs. JOHN WYETH & BROTHER,
1412 Walnut Street.

Pure Concentrated Medicines,

CONCENTRATED TINCTURES, &c.

PREPARED AT THE LABORATORY OF

B. KEITH & CO., NEW YORK.

CONCENTRATED MEDICINES:

OR,

ACTIVE PRINCIPLES OF MEDICINAL PLANTS.

Our list embraces many preparations from crude materials of recognized officinal medicinal value. Others, though comparatively new to the profession, are fast gaining confidence in their remedial powers.

Each preparation represents the full therapeutic virtues of the crude substance from which it is derived.

They are *definite* in constitution and therapeutic power, *uniform* in medicinal strength, *reliable* in clinical practice, and *not liable* to vary, change, or deteriorate by age.

We prepare no lactinated articles, nor triturations with foreign substances of any kind.

They are put up in bottles of one ounce avoirdupois, and securely sealed to protect them from the action of the atmosphere.

CONCENTRATED TINCTURES.

These are much stronger than any other fluid preparations made from the same material. Put up in bottles of 2 ozs. and 1 lb.

CONCENTRATED ORGANIC MEDICINES:

Being a Practical Exposition of the Therapeutical Properties and Clinical Employment of the Combined Proximate Medicinal Constituents of Indigenous and Foreign Medicinal Plants. Together with a brief history of Crude, Organic Remedies, Constituents of Plants, Concentrated Medicines, Officinal Preparations, &c. By GROVER COE, M. D. Tenth edition, octavo, pp. 446. Price $1 25. Postage 24 cents extra.

This is the latest and most complete work upon the Concentrated Medicines yet issued from the press. It is full, yet terse, concise, and eminently practical. To all who wish to keep pace with progressive therapeutic science, this work is an indispensable acquisition.

We will furnish gratis, on application, a copy of our "MANUAL OF THE ACTIVE PRINCIPLES OF INDIGENOUS AND FOREIGN MEDICINAL PLANTS," containing short accounts of each preparation, with properties, uses, doses, etc.

Address all communications to

B. KEITH & CO.,

41 Liberty St., New York; P. O. Box 1759.

PHARMACEUTIC GRANULES AND DRAGEES,

(SUGAR-COATED PILLS) OF

GARNIER, LAMOUREUX & CO.,

Members of the College of Pharmacy of Paris.

These Granules and Dragees are recognized, both in Europe and in the United States, as the most reliable way of dispensing valuable medicines. Physicians will find many worthless imitations, and they must be careful to see that the pills dispensed by the Druggist are made by Messrs. GARNIER, LAMOUREUX & Co., Members of the College of Pharmacy, Paris. The following are some of the principal preparations:—

DRAGEES.

	U. S. P.
Aloes and Myrrh	4 grs.
Compound Cathartic	3 "
" "	1⅓ "
Aloetic	4 "
Assafœtida	4 "
Aloes and Assafœtida	4 "
Dinner, Lady Webster's	3 "
Compound Calomel, Plummer's	3 "
" " "	1⅓ "
Blue Pills	3 "
Opium Pills	1 "
Calomel Pills	2 "
Opium et Acet. Plumb., each	1 "
Extract of Rhatany	2 "
Compound Rhubarb	3 "
Compoud Colocynth	3 "
Compound Squills	4 "
Dove's Powders	3 "
Carbonate Iron, Vallet's formula	
Carbonate of Manganese & Iron	
Kermes	1-5 "
Santonine	½ "
Bi-Carbonate of Soda	4 "
Magnesia and Rhubarb, each	1 "
Meglin	1 "

	U. S. P.
Quevenne's Iron, reduced by Hydrogen	1 grs.
Cynoglosse	1 "
Protoiodide of Iron	1 "
Sulphate of Quinine	1 & 2 "
Valerianate of Quinine	1 "
" " Zinc	1 "
" " Iron	1 "
Citrate of Iron and Quinine	2 "
" " Iron	2 "
Willow Charcoal	2 "
Diascordium	2 "
Anderson's Antibilious and Purgative	2 "
Extract of Gentian	2 "
Iodide of Potassium	2 "
Calcined Magnesia	2 "
Rhubarb	2 "
Ergot powder, covered with sugar as soon as pulverized	2 "
Phellandria Seed	2 "
Washed Sulphur	2 "
S. N. Bismuth	2 "
